

All About Life

After the last session of the All About Life curriculum, ask the students:

What is the most important thing you learned in All About Life?

What students said they learned:

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____

FOR EDUCATOR USE ONLY:

SCHOOL: _____ **GRADE:** _____ **CLASSROOM:** _____

Por favor lee cada declaración con cuidado. Marca con una palomita la caja “☑” para mostrar si estas de acuerdo o en desacuerdo con la declaración. (Marca <i>sólo una caja</i> para cada declaración.)			
	De acuerdo	En desacuerdo	
7. Si yo no quiero tener sexo, yo puedo decir "no" o "detente".	<input type="checkbox"/>	<input type="checkbox"/>	
8. Me daría mucha pena hacerle a mis padres/guardianes una pregunta acerca del sexo.	<input type="checkbox"/>	<input type="checkbox"/>	
9. Yo planeo esperarme hasta después de que me gradúe de la preparatoria antes de tener sexo.	<input type="checkbox"/>	<input type="checkbox"/>	
10. El sexo representado en los medios (como la televisión, la música y revistas) no siempre es sexo seguro, saludable o responsable.	<input type="checkbox"/>	<input type="checkbox"/>	

11.a. Antes de este año, ¿alguna vez has aprendido acerca del VIH/SIDA o acerca de la salud sexual en la escuela?

- Sí
 No

11.b. De ser así, ¿qué tipo de educación acerca del VIH/SIDA o la salud sexual recibiste?
(Marca *todos los que apliquen*.)

- Alguien vino a mi clase (por ejemplo de F.L.A.S.H.)
 Participé en una competencia de cine/video (por ejemplo, “Scenarios”)
 Aprendí acerca de esto en la clase de salud
 Participé en un programa de VIH/SIDA o salud sexual después de clases escolares (por ejemplo, BRICK, Girl Power, WAVE)

¡Gracias!

Por favor lee cada declaración con cuidado. Marca con una palomita la caja “☑” para mostrar si la declaración es verdad o falsa. Si no sabes, no te preocupes, marca la caja que dice "No se". (Marca sólo una caja para cada declaración.)			
1. Uno sabe que alguien tiene VIH al solo verlos(as).	Verdad <input type="checkbox"/>	Falso <input type="checkbox"/>	No se <input type="checkbox"/>
2. El usar un condón durante el sexo es llamado "sexo más seguro".	Verdad <input type="checkbox"/>	Falso <input type="checkbox"/>	No se <input type="checkbox"/>
3. Una muchacha no puede quedar embarazada la primera vez que ella tiene sexo.	Verdad <input type="checkbox"/>	Falso <input type="checkbox"/>	No se <input type="checkbox"/>
4. La mayoría de las personas que abusan de los niños(as) son extraños (personas desconocidas).	Verdad <input type="checkbox"/>	Falso <input type="checkbox"/>	No se <input type="checkbox"/>
5. El sexo entre niños y adultos siempre es malo (<i>los adultos no deben de tener sexo con los niños</i>).	Verdad <input type="checkbox"/>	Falso <input type="checkbox"/>	No se <input type="checkbox"/>
6. Cuándo yo permito que otra persona decida por mí, yo estoy tomando una decisión activa.	Verdad <input type="checkbox"/>	Falso <input type="checkbox"/>	No se <input type="checkbox"/>
Por favor lee cada declaración con cuidado. Marca con una palomita la caja “☑” para mostrar si estas de acuerdo o en desacuerdo con la declaración. (Marca sólo una caja para cada declaración.)			
	De acuerdo	En desacuerdo	
7. Si yo no quiero tener sexo, yo puedo decir "no" o "detente".	<input type="checkbox"/>	<input type="checkbox"/>	
8. Me daría mucha pena hacerle a mis padres/guardianes una pregunta acerca del sexo.	<input type="checkbox"/>	<input type="checkbox"/>	
9. Yo planeo esperarme hasta después de que me gradúe de la preparatoria antes de tener sexo.	<input type="checkbox"/>	<input type="checkbox"/>	
10. El sexo representado en los medios (como la televisión, la música y revistas) no siempre es sexo seguro, saludable o responsable.	<input type="checkbox"/>	<input type="checkbox"/>	

11. Durante el programa de F.L.A.S.H., yo aprendí...

Mucho Un Poco Nada

12. Lo más importante que aprendí durante el programa de F.L.A.S.H. es:

¡Gracias!

Making Proud Choices

Grades 7 – 8

2009 - 2010

PRE

A. What is your date of birth? _____ / _____ / _____
month day year

B. Are you:

- Black
- White

CMSD Responsible Sexual Behavior (RSB) 2009-2010 Evaluation
APPENDIX B: Student Responses to Open-Ended Questions

F.L.A.S.H.
Grade 4 – Post
2009 – 2010

12. What was the most important thing you learned in the F.L.A.S.H. program?	
PRAID	Comment
001	Puberty.
002	I learned a lot about puberty.
003	That boys and girls have puberty.
004	Not to ask about sex.
005	To never let anyone touch you in a private way.
006	Puberty.
007	You have the right to tell anyone to stop if they touch you.
008	I saw a penis.
009	Puberty and sex and touches in a bad way.
010	That when boys grow hair on the private part and when girls have eggs (then they both can have a baby).
011	About having sex.
012	Private parts are important.
013	Gender.
014	I learned most about puberty.
015	That when you have puberty a persons body changes.
016	About do not let other people touch your body and puberty.
017	Puberty.
018	Most people who abuse kids are strangers.
019	A bad touch and a good touch.
020	I learned about puberty.
021	To ask your parent about sex.
022	The most important thing is about making a baby.
023	Never let anyone touch you in a bad way.
024	I learned about puberty.
025	I don't know.
026	That you have to be careful everywhere you go.
028	About AIDS and HIV.
029	I learned more about puberty and sex.
030	Good thing about it.
031	Puberty.
032	That if you are having problems tell a grown-up.
033	Never to let no one touch you in a bad way.
034	The most important thing I learned is about when you began to start puberty.
035	The most important thing I learned in the FLASH program is it is important to like yourself.

12. What was the most important thing you learned in the F.L.A.S.H. program?	
PRAID	Comment
036	Can get HIV and AIDS if you don't be careful.
037	That it's important to not let someone touch your private parts.
038	You can get HIVS from having sex.
039	Nothing important.
040	That puberty is a time when you change.
041	New things.
042	That you should not be touched in your private (area).
043	That sex is wrong.
044	To know the rights of HIV or AIDS.
045	That I should not let a boy touch me until I am older.
046	About friendship.
047	I have learned a lot of health.
048	HIV, AIDS.
049	HIV.
050	About sexuality.
051	I learned lots of things about sex and sperm and puberty.
052	How to have...
053	I learned how a ...
054	A lot about body stuff.
055	Puberty.
056	That we go through puberty.
057	That sex is for older people.
058	To say no to things that are not right.
059	How to get a baby.
060	Puberty.
061	Puberty, I learned about sex.
062	I learned about puberty.
063	Boys have puberty when they turn adult age.
064	I learned about puberty.
065	I learned about puberty.
066	I learned about puberty.
067	About how we have good babies.
068	How you can get pregnant.
069	I learned about puberty.
070	About self esteem.
071	I learned a lot.
073	I didn't know boys start puberty earlier than girls.
074	I learned a lot and sometimes it's not right.
075	Body touch.
077	About touches because I don't want anyone to hurt me.
079	I thought that girls start puberty a little later than boys.
080	Don't let a boy touch you.
085	That it's important to tell a grown-up.

12. What was the most important thing you learned in the F.L.A.S.H. program?	
PRAID	Comment
086	Don't let anyone touch you in a bad way.
090	I learned about sex and puberty.
091	The most important thing I learned in the FLASH program is about puberty.
092	Never to touch a private part of someone else.
093	I learned that you need to take showers every day while on your period.
096	The most important thing I learned was the decisions you make even if they are bad.
097	Abuse is bad.
098	I learned you have to wipe yourself in your private part a lot or you will smell fishy during your period.
099	Self-esteem.
100	That puberty is an important thing in the world.
101	That girls start puberty a little earlier than boys.

**F.L.A.S.H.
Grade 5 Post
2009 - 2010**

13. The most important thing I learned during the F.L.A.S.H. program is:	
PRAID	COMMENT
001	I learned that you shouldn't have sex until a certain age.
002	You shouldn't have sex during school.
003	The most important thing I learned is about how to make a baby.
004	Have sex after you get married.
005	You shouldn't have unprotected sex.
006	To not have sex.
007	Is to not have sex at a young age.
008	Is all the changed in your body.
009	How a baby is formed.
010	I don't know.
011	Tell parents immediately if someone abused you.
012	That aids are not only for girls.
013	Sex at 18.
014	About puberty and when you get it and what happens.
015	That I shouldn't have sex after.
016	AIDS and HIV.
017	About sex.
018	When a girl has her period she can have kids.
019	That ejaculation from the penis at night is normal among boys during puberty.
020	Do not have sex until you are a guardian.
021	Do not have sex until you are a parent.
022	That I shouldn't have sex after (graduated?) from school.
023	That I shouldn't have sex after (graduated?) from school.
024	The right decision is to have sex after I graduate.
026	About puberty.
027	About diseases and how to prevent catching them.
029	You should not have sex at a young age.
030	Sex is disgustingly nasty.
031	You can catch deadly diseases from unprotected sex.
032	About puberty.
033	How boys have wet dreams. How you have babies.
034	Not to have sex at a young age.
035	That a baby can get HIV while breast feeding.
036	You shouldn't be touched or abused. I learned about puberty too.
037	The most important thing I learned is not to have sex until you got older.
038	I learned about periods and jacking off.
039	How to protect myself.
040	How not to rush to have sex.
041	The most I learned at the FLASH program is not to be touched, not to be forced to be touched.

13. The most important thing I learned during the F.L.A.S.H. program is:	
PRAID	COMMENT
042	I learned that you can't have a baby without sperm.
043	HIV and AIDS.
044	Not to have sex. About body parts.
045	The most important thing I learned during the FLASH program is puberty.
046	The most (important) thing I learned in the FLASH program is about our body.
047	When I learned about puberty and pregnancy.
048	That it is okay to have sex but wait until you're over age not before.
049	The most important thing that I learned is to never have sex without protection.
050	I learned a lot about myself and need to know in case something happened.
051	About puberty, sexuality and how a baby is made.
052	If you don't want to get STDs then don't have sex.
053	That I learned about my body (on) the inside.
054	You can get HIV and AIDS by shooting drugs.
055	Stay a kid and don't have sex.
056	The most important thing I learned was when girls have their period they don't get pregnant.
057	That you can't get rid of HIV or AIDS.
058	I learned that I should wait for sex.
059	The one thing I learned is to graduate from school before having sex.
060	Never to have sex at a young age and never let anyone sexually abuse me.
061	Puberty.
062	Puberty.
063	Be careful having sex.
066	Be careful, use protection when having sex. Don't have sex.
068	Is puberty.
069	Is about HIV and AIDS and never to have sex.
070	Never to have sex.
071	It is your choice to have sex.
072	Don't have sex or you can get a disease.
073	I learned that girls and boys can develop.
074	Do sex, they may have HIV/AIDS.
075	Is puberty.
079	I learned sharing (needles) you can catch HIV.
080	Not to have sex at an early age.
081	Not to have sex.
082	Protect myself.
083	Learning about boys wet dreams.
084	If you are alone make sure you have a parent with you.
086	HIV/AIDS.
087	Learning how to get HIV.
088	About my body, safe choices, puberty from a child to women and sex.
090	Don't have sex because you can get HIV and AIDS.
91	I learned not to have sex at all.

13. The most important thing I learned during the F.L.A.S.H. program is:	
PRAID	COMMENT
92	I did not know all this stuff about sex.
93	I learned never to talk to people that you don't know.
94	Diseases.
96	What can happen if I have sex.
97	Is not to have sex, so I don't get pregnant until I'm married.
98	That having sex is not the right thing.
99	That don't let people touch you in your private areas.
101	To be careful on what you do and how you do it.
103	That people could have AIDS and not know for a long time.
105	How my body works.
106	About puberty.
108	To not say the D word and not to sexually abuse a woman.
109	Do not rape or sexually abuse a woman.
111	That sex is wrong unless you are married.
112	Graduate from high school first and have sex.
113	Proper [...] (can't read)
114	I learned a lot in the FLASH program about body parts.
115	Never let anyone touch or feel on me – never, ever.
116	To never let anybody touch your private parts.
117	What to do and what not to do.
118	When you get older you get more hair around your body.
119	Have safe sex, use something when you have sex so you don't have a baby.
120	I basically knew about everything.
121	About puberty.
122	Be responsible about sex.
123	About menstruation and about pregnancy.
124	Wet dreams during puberty.
125	Don't touch girls without their permission.
126	When I go through puberty.
127	About how I can be touched.
128	People can get HIV/AIDS.
129	The most important thing I learned in FLASH is about how to stop sexual abuse.
130	Being forced to have sex is never OK.
131	Girls and boys start going through puberty at the age of 8 – 16 but girls start earlier.
132	About to touch people in the wrong places.

**F.L.A.S.H.
Grade 6 Post
2009 - 2010**

12. The most important thing I learned during the F.L.A.S.H. program is:	
PRAID	COMMENT
001	That I should be (more) safer with sex.
002	Was not to have sex unprotected or don't have sex at all.
003	That you should always wait until the right time to have sex.
004	Puberty.
005	To don't have sex today.
006	Not to have it without a condom.
007	Nothing.
008	I don't do unprotected sex.
009	Not to have unsafe sex.
011	Not to have sex so you won't get pregnant.
012	When you have sex you should use a condom.
013	That you shouldn't have sex.
014	To not have sex.
015	Don't have sex.
016	People cannot have sex when they're young.
017	How HIV is form(ed?).
018	What HIV stands for and how you know that is what I learned.
019	Stay in school and don't have sex.
020	To make healthy choices in life.
021	I learned what HIV stood for.
022	The safe way to stay protected during sex.
023	Have safe sex.
025	Safe sex.
026	Use a condom.
027	About not to have sex at an early age.
028	Not to have sex.
029	HIV's and AIDS.
031	I learned how HIV spreads.
032	The most important I (thing) I learned to make...
033	Is that to be safe and that sex is serious.
034	That if you have oral sex you can get STDs and that most kids get abused by people that they don't know.
035	Never have sex without a condom because I do not want to have a son or daughter if I am not ready.
036	HIV and the reproduction systems.
037	Pregnancy.
038	I don't have to do anything I don't want to.
039	You can catch HIV if you don't use condoms for safer sex. That is the important thing.
040	I learned about how not to (prevent) getting pregnant.
041	The ways to prevent me from having sex at a young age and understanding the safe and

12. The most important thing I learned during the F.L.A.S.H. program is:	
PRAID	COMMENT
	important things about sex.
042	Not to have sex until I get out of college and to always way no when someone asks me to have sex.
043	When you have a condom you can still get pregnant and when you have sex with a boy and it is a possibility he can have HIV.
044	To use a condom because the girls you have sex with could have HIV or AIDS.
045	It's a lot of harm by doing something that you enjoy.
046	To be safe about HIV and AIDS.
047	Never have unsafe sex. Wait until you are older to have sex or think about it.
048	That you should be careful of what you decide when someone asks to have sex with you.
049	That it takes a lot to have and want a baby.
050	I did one (positive?) thing on stage.
051	That sex is sometimes good and it can be dangerous.
052	I plan to wait until after I graduate from high school before having sex.
053	Is use a condom before having sex or you can get a girl pregnant or you can get a HIV.
054	That your baby is not in your tummy and that when you're pregnant you can probably be pregnant with twins.
055	When someone asks me to have sex with them and you don't want to say "NO".
056	One thing that was important was you told how many eggs a lady has in her stomach.
057	I learned that you should think for a while before making a big decision that can affect your life and personality.
058	Get the boy a test. And don't have sex until after I get married.
059	When you have sex use a condom for protection. You and your sex mate should go get tested.
060	How people develop and have kids and the diseases and how to avoid them.
061	You should wait to have sex after high school.
062	About AIDS and HIVS and what is safe sex and puberty.
063	To always use a condom when I have sex.
064	I wasn't there.
065	Different names for different baby parts.
066	The most important thing I learned is AIDS and HIV.
067	To choose wisely.
068	Nothing because when I was eight my mom told me all about sex.
069	People should wait to have sex. Also, knowing how to wait to have sex is very good to know.
070	I learned that its most important to be safe while (having) sexual activities.
071	That never have sex until you're grown.
072	To always make sure what you're doing.
073	To be healthy and I want to stay healthy because of the stuff that can happen.
074	About how you get AIDS and to be protective if you decide to have sex.
075	To be safe at all times.
076	Girls can become pregnant the first time she's had sex.
077	H.I.V.
078	To be safe and healthy

12. The most important thing I learned during the F.L.A.S.H. program is:	
PRAID	COMMENT
079	Not to have sex until I'm married because you can become pregnant and have a kid. You will not have fun.
080	Never be afraid to ask you parent about sex.
082	That when you use a condom you still can get pregnant but it is more safe.
083	That sex is unsafe and using a condom is 90% safe.
084	That the baby is not in the stomach.
085	You should not have sex and should keep yourself healthy.
086	I learned a lot about sex.
088	To have safe sex with a condom.
090	How to use protection.
091	About sex.
092	The baby wasn't in the stomach.
093	That I should use protection when I have sex.
094	Certain STDs attack your immune system.

Making Proud Choices
Grade 7 – 8 Post
2009 - 2010

15. The most important thing I learned during the Making Proud Choices program is:	
PRAID	COMMENT
001	If I don't want to have sex I can say no.
002	N/A.
003	Different things.
004	It's not safe to not use protection during sex.
005	Pregnancy, HIV, STD, sex, protection and etc.
006	How to protect myself or just not to do it at all.
007	That a woman could have a baby the first time she could get pregnant. Also having intercourse sex if male penis is by a woman both and sperm in her mouth that a baby cannot be prevented it.
008	I learned that you first time having sex you can get pregnant.
010	Being protected while having sex is a big deal.
011	Always be safe, make good choices and always say no or stop if you don't want to have sex.
012	Not to have sex at a young age.
013	Always use protection and don't be afraid to say stop or no if you don't want to have sex.
014	I was not here.
015	That you can make good choices from having sex. Also I learned how to watch out for (stuff?).
016	Sex, how to prevent pregnancy, what you can use, diseases.
017	That if you go around having sex with everyone that you can get HIV.
018	I learned that condoms are not 100% protective.
019	That I shouldn't have unprotected sex or even sex at all because I can get a disease or get pregnant.
020	Not to have sex unless you're ready.
021	You don't have to have kids to feel loved.
022	The only (way) to stop pregnancy is to not have sex.
023	When I can go to get tested.
024	About how you have a baby because of sex.
025	The most important thing I learned is wait to have safe sex or don't have it at all.
026	That I now know what to do in this situation.
027	If you don't want to (have) HIV or STDs don't have sex.
029	The most important is pregnancy.
030	Don't have sex it's bad for your health and not good for your body especially if you are young.
031	To not have unprotected sex with anyone or oral sex.
032	You can get diseases from kissing and oral sex.
033	To not have unprotected sex.
034	Not to have sex.
035	Not to have sex.
036	To think before I make that choice that could change my life forever.

15. The most important thing I learned during the Making Proud Choices program is:	
PRAID	COMMENT
038	You shouldn't be foolish and have sex while you're a child.
039	Different ways to prevent pregnancy and STDs.
040	Not how to keep safe from diseases.
041	Not to have unprotected sex or oral sex.
042	Nothing.
044	You would not become a parent.
045	No.
047	How to read and do math.
048	HIVS.
049	You don't always have to have sex.
050	Nothing.
051	Having unprotected sex is bad.
052	The consequences of sex.
053	That you can have AIDS after sex.
054	There are lots of ways to prevent teen pregnancy and transmitted diseases.
055	Not to have sex.
056	How to prevent having a baby.
057	Wait for sex or oral sex.
058	That you should always wait to have oral/sex.
059	To always wait until having sex or make sure its with the right one.
061	How to say no.
062	Was many ways to have safe sex.
063	You should always put on a glove before having sex with someone.
064	To wait if you are not ready.
065	That sex can cause many serious diseases.
066	Take care of yourself.
068	To always use condoms.
069	How to say no.
070	That the only way to stay safe is staying abstinent.
071	You should not have sex at a young age.
072	Not to have sex until I am ready.
073	About AIDS/HIV and to say no or wait to have sex.
074	Not everyone needs sex.
075	You should always to get tested. You can get HIV or AIDS and not know. Try to wait and find the right one.
076	As a teen you should wait to have sex because it is not good to have sex at a young age.
077	Wait to have sex. And if you wait you can't get any STDS or get pregnant. It's the only 100% way.
078	Learning about things in class.
079	Stay protected.
080	It's not always good or safe to have sex.
081	Making sure I don't have sex and stay away from people that do.
082	To stay abstinent and don't have sex.

15. The most important thing I learned during the Making Proud Choices program is:	
PRAID	COMMENT
083	The main ways that HIV and other sexually transmitted infections are passed.
084	No to have sex because you can get transmitted infection.
085	Is how sex diseases happen.
086	That if you don't want to get a transmitted infection or have a baby don't have sex.
087	Staying a virgin is the only way to prevent a baby or HIV.
088	That you can not tell if somebody has HIV.
089	How to prevent a girl from pregnancy.
090	You cannot get AIDS by drinking off someone.
091	Some of the teens and their babies and also HIV/STDs.
092	To use condoms and make sure the person who's with me agrees to do it before we do it.
093	Not having sex is the most effective way.
094	You shouldn't have sex when you're young because you can complicate and destroy your life.
095	That having sex is not appropriate for people my age for multiple reasons.
096	That most teenagers with babies are in or below poverty level.
097	I learned that you shouldn't have a baby, just so you feel loved.
098	Abstinence is the only 100% way to prevent pregnancy or STD... Saying no!
099	That having a baby is something you can get from sex.
100	How sexually transmitted infections can be shared.
101	There are a lot of STDs and you have to protect yourself such as your partner.
102	To always have a condom on if you're having sex.
103	The most important thing I learned is not to get STDs or have sex at my young age and not to let anyone peer pressure me.
104	Use a condom.
105	That you need to always use condoms.
107	That not having sex is the only way not to get pregnant or sexually transmitted infections.
108	Use protection before having sex.
109	To use a condom.
110	Most names of the STD group.
111	That I should not have sex until I get old enough and I should not have unprotected sex.
112	Is that it helps about education and health.
114	That no on can make you have sex.
116	To use protection before having sex.
117	That sex isn't something to do to be cool and that sex is something that you can die from.
118	Don't have unprotected sex.
119	How to use protection when having sex.
120	How to stop and think about having sex and (be) abstinent for a 100% way of not having a transmitted infection.
121	The disease that happens and how people get them.
122	That not having sex is the best thing to do unless you're a full adult or until married.
123	That how STDs are spread.
124	The most important thing I learned is you won't notice you have HIV or AIDS iuntil 10 years after you got them.
125	If you don't have sex you won't catch these infections.

15. The most important thing I learned during the Making Proud Choices program is:	
PRAID	COMMENT
126	Just to wait until you are ready to.
127	You should always wait until you have sex.
128	There are ways to prevent HIV and other diseases and there are people that you can talk to that will help you.
129	When you have an infection your self-esteem is lowered. Also, that having a child at a young age is very horrible.
130	Youth sex is bad.
131	The effect of unprotected sex.
132	That any choice you make about sex has a grand effect on you.
133	Not to have sex at a young age and when you're in school.
134	That when having sex it's always a good thing to use protection. Protection is safe sex. It protects you from STDs and pregnancy.
135	Do not have sex until you're married.
136	Not to have sex when your young because you can get a baby.
137	To wait to have sex until you're ready.
138	Sex has many effects.
139	How to keep yourself from getting pregnant or STDs.
140	Even when you protect yourself when having sex you can still get pregnant. It's best to not do it at all.
141	You don't always know if you have a disease unless you get tested.
142	What kind of diseases there are and to wait to have sex.
143	That having a baby at a young age can cause problems for the baby and it is not healthy for the mother either.
144	People have babies a lot.
145	To always use protection, also to get checked for HIV.
146	To have sex whenever I want to use protection.
147	That when teens have children it's a good chance the baby will be unhealthy, or premature.
148	To make smart choices and to say no when you need to, if not there can be serious consequences.
149	Sex before marriage is dangerous because of the other person leaving and HIV/AIDS and pregnancy.
150	To always have protected sex.
151	That always to have protected sex.
152	To not have sex until I am ready and if I do, to use protection.
153	To not be sexually involved before I finish schooling.
154	That not all STDs are curable.
155	Don't have sex if you don't use protection so you don't get pregnant or STDs.
156	If you do have sex be sure to use a condom. You can catch a disease or get pregnant the first time.
157	Don't have sex ever and be smart who you hang around with and don't peer pressure anyone.
158	Using a condom.
159	I don't know.
160	That having a baby is not always good.

15. The most important thing I learned during the Making Proud Choices program is:	
PRAID	COMMENT
162	Not to have sex at a young age.
163	That having sexual stuff you can get HIV and other things. I learned a lot.
164	Don't have sex an at early age.
165	The most important thing I learned is that any age group can catch STDs.
166	Nothing.
167	Having a baby being a teen.
169	That teasing a friend about not having sex is going to make them have sex.
170	Think before you do it.
172	You should at least wait until you're married or in love with someone to have sex.
173	You can't tell if someone has HIV by looking at them.
174	No sex is the best way to be safe.
175	Having sex and diseases.
177	All the sexually transmitted infections there are.
178	To have safe sex.
179	To make good choices.
180	That when you think about having sex, make sure you have an agenda to be safe so you can not get pregnant.
181	Not to have sex until after High School.
182	To wait and be safe when starting.
183	That it is not safe to have sex because you can always get pregnant your first time and you can catch a disease that is not safe for your body.
184	I learned a lot about HIV.

**Safer Choices
Grades 9 – 12 Post
2009-2010**

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
001	Just say no, and they way to build a relationship.
002	Sex.
004	The most important thing learned is that the love triangle helps relationships.
005	The important thing I learned was more details about STDs.
006	What STD does what.
007	No matter what, not having sex is the best choice.
008	Semen can hold the disease.
009	How to say not the right way also how not to get STDs.
010	Don't have sex or you can get an STD if you do have sex use a condom or get tested beforehand.
011	Most important to me was about all the diseases and how to get treated, how to prevent it.
012	About STDs.
013	I learned mostly about relationships. I can go back and apply it to mines.
014	I learned to say no.
015	I learned about STD that I didn't really know about.
016	About STDs.
017	How STDs are transmitted because there are some I didn't know.
018	That you can get birth control without parents permission (not that I need it).
019	That genital warts are not curable.
020	The most important thing was learning the different types of STDs.
021	Ways to prevent STDs and to not have sex. Any kind.
022	The different STDs.
023	What the diseases are.
024	The different kind of diseases and STDs.
025	I learned that STDs can be past through oral sex, how to prevent STDs and more about STDs.
026	To use condoms or to not have sex at all to prevent diseases and stuff.
027	I learned all the disease that could be passes so it helped make up my mind.
028	The most important thing I learned again was abstinence is the best way to prevent pregnancy and disease.
029	I learned that there are a lot of diseases going around through having sex.
030	How to catch disease.
031	Don't have sex.
032	That saying no isn't as hard as people make it seem.
033	The STI diseases.
034	How to say no.
035	How to say no and why it is important to stay healthy.
036	I learned about the different types of STDs.
037	I learned about a lot of STDs and they were important to learn.
038	About the signs and how you know you have something.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
039	STDs is the most important thing I have learned about in Safer Choices program.
040	Pregnancy.
041	How HIV is spread and preventing disease.
042	Different STDs and how to prevent it.
043	Herpes because my cousin has it.
044	The ways to say no.
045	Information about STDs.
046	The most important thing was to learn about HIV and other STDs.
047	The most important thing I learned was when we talked at symptoms of STDs.
048	That having sex isn't important or safe because you can get sexual transmitted diseases.
049	How you can get STD and which ones.
050	STDs.
051	Oral and Anal sex can transfer diseases.
052	How to prevent STDs.
053	About STD prevention.
054	Always use a condom.
055	I learned about HIV.
056	I learned more about STDs.
057	The most important thing I learned in the S.C.P. is how to prevent STDs.
058	The most important thing I learned was about STDs.
059	To stay abstinent until marriage.
060	The types of diseases.
061	The different diseases.
062	About STDs.
063	The most important thing I learned was the ways to prevent STDs.
064	I don't remember.
067	Reactions of having STDs.
068	About all the different STDs.
070	I learned about syphilis.
071	Not to have sex when very young.
072	How to say not and use it strong.
073	Don't try to get an STD.
074	How to build a good relationship.
075	Build strong relationships before sex.
076	The most important thing I learned was about all the different viruses and diseases that I didn't know about before.
077	HIV.
078	How to prevent different STDs, also how to say no to sex!
079	The most important thing is about the STDs and the effects.
080	Dangers of HIV infection.
081	It was all important.
082	Sexually transmitted infections, female protection methods.
083	Don't have unprotected sex.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
084	Once you have something your life will change and you might have to live with them for the rest of your life.
085	That people can have HIV and not even look as if they do.
086	The most important thing I learned was how to prevent STIs.
087	The most important thing I learned is the seriousness of STDs such as HIV.
088	The most important thing I learned was that a person may have AIDS, HIV or an STD and not even know it.
089	That protecting myself and others is the best thing.
090	The most important lesson I learned is the many birth control items out there for women.
091	The consequences of getting a girl pregnant or getting HIV/AIDS or STDs.
092	The different ways to protect yourself while having sex.
093	How to prevent pregnancy.
094	Choosing between what you think is right from what you <u>know</u> is right.
095	There are treatments for sexually transmitted diseases.
096	The different ways to prevent pregnancy.
097	Ways to say no.
098	The effect of STI and pregnancy on peoples lives.
099	I learned about different types of birth control and how they work.
100	The safest sex is no sex, diseases are out there and can infect anyone.
102	That saying no and waiting until your ready is the best choice.
103	That a baby is at a high risk when the parents are teenagers.
104	Different birth control method.
105	Ways to avoid pregnancy and STIs.
106	The most important thing I learned was how to build a healthy relationship.
107	Ways to prevent pregnancy and safe sex.
108	Pregnancy prevention.
109	Different ways to prevent pregnancy.
110	Not to have sex. Being abstinent is the best choice. I've learned a lot in the past on this topic but I learned more.
111	The different birth control choices and how when you have unprotected sex you not only place yourself in a huge risk but your partner, and possibly your child if you become pregnant.
112	The most important thing I learned was how pregnancy at a young age can be devastating.
113	Learning the different ways to protect yourself.
114	I've learned about the different perspective as far as how boys think and I've learned more about HIV that I never knew before.
115	Women have more choices of birth control so we can make sure we do not get pregnant when ever we don't want to.
116	All the ways to prevent pregnancy and getting STIs.
117	How different diseases affect your body and to make smarter choices when my health is at stake.
118	The consequences behind sex.
119	Since I know a majority of the information I would have to say leaving space in your

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
	condom.
120	I learned the different birth controls and how they're used.
121	The most important thing was about birth controls and condoms.
122	That in order to be in a healthy relationship you have to build a foundation.
123	About different types of virus that can effect your body.
124	Different birth control methods.
125	Someone could look healthy and may have a disease that your or he/she may not know about.
126	Way to prevent pregnancy.

625	To always use protection.
626	A little of how to say no.
627	I learned to say no to sex.
628	About using a condom.
629	The most important thing was watching that video and those girls explaining how much their lives changed.
630	Saying no.
631	The most important thing I learned in the program is to not have sex.
632	Having sex more carefully.
633	How to say no.
634	How to prevent pregnancy.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
637	It's my body and all the things you can catch.
638	How most STDs affect you.
639	How the reproductive system works.
640	The most important thing I learned was about STDs.
641	The importance of using a condom and sexually transmitted diseases.
642	The most important thing I learned was that you can contract some STD just by contact with open sores.
643	I learned there are a lot of STDs out there that I can catch and have for the rest of my life.
644	I learned never to use two condoms, plus I learned about AIDS/HIV.
645	To squeeze the tip of the condom when putting it on.
646	They way my body works.
647	About the different AIDS and HIV.
648	How an STD is created and the symptoms of it.
650	I learned about all the STDs and other sexually transmitted infections.
651	The most important thing was pregnancy.
652	Use a condom to prevent pregnancy.
653	How a woman uses her condom.
654	There are many ways to prevent pregnancy.
655	I learned so many safe things to prevent pregnancies or sexually transmitted diseases.
656	How to prevent getting pregnant or getting any disease.
657	I learned about teen pregnancy and how to prevent it and I want to do the right thing and protect myself.
658	The different kinds of birth control.
659	The importance of using protection when having sex.
660	Girls have many ways not to get pregnant.
663	About how anal could possibly get a girl pregnant.
664	Having sex can be bad.
666	Having sex would be bad.
667	I've learned that anything could happen when you have sex.
668	How to prevent HIV from using a condom and how a girl's body works and how a male's body works.
669	How to put on a condom.
670	That you can use spermicidal to kill sperm.
671	All the different ways you can prevent pregnancy and sexually transmitted diseases.
672	How to prevent pregnancy.
674	Ways to protect myself.
675	Most important thing that I learned in the Safer Choices is ways to say no.
676	The most important thing I learned is how to prevent pregnancy.
677	No sex is the safest way.
678	How/ways to prevent pregnancy.
679	That there is nothing that can protect you 100% but saying no.
680	That doing sex is not safe for you.
681	Do not have unprotected sex.
682	You can still be affectionate without having sex.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
683	You need to leave space at the end of a condom.
684	I learned more details about STDs.
685	Preventing teen pregnancy.
686	You can lose your virginity when you have oral sex.
687	The most important thing I learned in the Safer Choices program was that when you sleep with one person you possibly sleep with whoever they've slept with.
688	The most important thing that I learned in the Safer Choices program is that herpes stays with you for life.
689	I didn't learn anything.
690	I have learned that STDs can be managed and there are ways to avoid it.
691	The most important was about ways to get STDs without having sex.
692	I learned that there are many different ways to get a viral disease.
693	I learned that you can get STDs no matter what kind of sex you have.
694	That some things never go away.
695	The most important thing I learned in the Safer Choices program was that genital warts look UGLY.
696	I learned about the risks of having sex.
697	The most important thing I learned was about how to say no and about the different STDs.
698	Everything I learned, I've learned before. The only new things I learned was how many people you have sex with (the chart).
699	Most of the things they taught us I already knew.
700	The most important thing I learned was not to have sex until I am married.
701	The most important thing I learned in the Safer Choice program is to make smarter choices and use a condom when you're about to have sex.
702	I do not really know.
703	Nothing.
704	I didn't really learn anything I haven't already learned.
705	How to say no to sex and about HIV and other sexual diseases.
706	No matter if it's oral, anal, vaginal sex, you can still get infected.
707	Everything we went over in this program I was already aware of what I've heard or seen.
708	That the way you say no can influence it a lot.
709	STDs are separated into two groups, viruses and bacteria.
710	I learned about different kinds of STDs and the causes and effects of it.
711	How STDs affect you and your body and how they are caught or transmitted.
712	If a boy tries to persuade you into having sex, you can still have a choice of saying no.
713	Some STDs are treatable.
714	The most important thing I learned was that you have to say no firmly.
715	I learned which STDs are viral.
716	Most important thing was the STDs.
717	The most important thing I learned was about the STDs.
718	You can get herpes from kissing.
719	I think the most important thing that I've learned in this program would be that the best way to avoid STDs are not getting sexually involved.

31. What was the most important thing you learned in the Safer Choices program?

PRAID	COMMENT
720	The most important thing I learned was when we talked about STDs.
721	Everything that I already know was cleared up.
722	All the types of diseases in the world and how they work.
723	Ways STDs are spread.
724	Ways to say no.
725	Don't start a relationship on sex.
726	I think a better way to say no!
727	I have learned nothing that hasn't been taught to me since the 6 th grade.
728	It's okay to say no.
729	I learned all of the major diseases that are likely in sexual activity.
730	Facts about different STDs.
731	Healthy relationships and what's right and wrong when you're in a relationship.
732	I learned most importantly about STDs and ways to say no.
733	About how to and not to get an STD.
734	Some ways to say no.
735	All types of different ways to catch an STD.
736	I learned about the many diseases.
737	Probably how easy it is to get STDs.
739	Abstinence is the safest choice.
740	The most important thing I learned in this program was the many different diseases and how you get them.
741	I learned about STDs.
742	I learned that the best way to not get an STD is if you don't have sex.
743	I learned that you could get tested without parent's consent if you are older than 14, but it's best if you don't have sex until marriage.
744	The most important thing I've learned that there are many things in this world such as STD, HIV, etc., but to stay away from it is to stay abstinent.
745	There are lots of STDs.
746	I learned to not have sex and the different HIV symptoms and how you get it.
747	How to get away from diseases and to prevent it.
748	I have learned that pubic lice is really not an STD.
749	The nasty looking STDs.
750	The most important was that you can get HIV from oral sex.
751	Everything I heard in this program I had previously known already.
752	Say no.
754	Ways to say no.
755	Saying no is the best thing.
756	The most important thing I learned was learning how to say no.
757	I learned that abstinence is the best.
758	About STDs.
759	Being abstinent is the best and safest way to prevent pregnancy and STD.
760	The most important thing I learned was the foundations of relationships, the love triangle and about STDs.
761	I learned that you should always know how to stand your ground and say no.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
762	Well the most important thing was about the STDs. I knew about it a little, but I learned more.
763	Information on STDs.
764	The most important thing I've learned is ways to say no to having sex.
765	About diseases.
766	The most important thing I learned in the Safer Choices program is how to say no and about STDs.
768	How to say "no."
769	About STDs.
770	I learned different ways how to say no to sex.
771	Sexually transmitted diseases and infections.
772	Don't have sex if you're not ready, just say no.
773	To not have sex in your early years and to not get any diseases.
774	What are the consequences, if you do have sex.
775	Don't have sex.
777	The most important thing I learned was the diseases and how you can get one.
778	Protection when having sex.
779	That STDs are bad. HIV and Herpes can't be treated.
781	Always use a condom.
784	Bingo is not a fun game.
787	How to prevent pregnancy.
788	The most important thing I learned was how to say no to the peer pressure.
789	STDs can be transmitted through oral sex, and how to use a condom.
790	How not to get an HIV or STD.
791	Pregnancy.
792	That there are other ways to prevent pregnancy.
793	Males only have one way to prevent from having a kid.
794	I learned about a different birth control.
796	All the different types of birth control there is.
797	Nothing.
798	The most important thing I learned was how to say no when having peer pressure to have sex.
799	I learned different forms of birth control for male and female.
800	The first time that you have sex you can become pregnant.
801	Herpes and AIDS will never be cured.
802	How to prevent pregnancy.
803	How to use birth control and how to stay safe.
804	Abstinence is safer than any other choice.
805	I knew everything about how to pull off the condom and about room at the tip.
806	How to stay safe when having sex.
807	Not to have sex until I am old enough and ready.
810	Use a condom to protect yourself from STDs.
811	How important it is not to get a girl pregnant.
812	How to make my relationship grow stronger.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
814	How easy it is to ice yourself.
815	How to say no.
816	I've learned everything she has taught last year.
820	How to deal with peer pressure and how to say no.
821	That STDs are very scary.
822	Don't have sex with a boy just because they say they love you and use a condom when you have sex.
823	How you can catch HIV and AIDS.
824	How to say no and not be afraid.
825	The most important thing I learned is that you can have AIDS and not know it.
826	HIV and how to say no.
827	That STDs can kill someone if they get it.
828	I learned all about the different types of STDs and how I can catch them.
829	Wear a condom at all times.
830	About transmitted infections.
831	How to say no.
832	I learned that there are other methods females can use to reduce the chance of pregnancy.
833	I knew mostly all.
834	To always use a condom.
835	I learned nothing important, I already knew what was taught.
836	How female contraception works.
838	Nothing. I have learned to be safe before. It was a refresher.
839	To use a condom properly.
841	Use protection.
842	More ways to say no.
843	Safe sex.
845	I saw this video already, they need to show the video where the actors were teens and I think it's called "secrets" – not the play but the movie.
846	The most important thing I learned was ways a girl can prevent pregnancy. Like female condoms and other stuff like that.
847	How and why to use a condom.
848	That there are many different ways to prevent pregnancy.
849	About the birth control.
850	Condoms are the only defense for STDs.
851	How some types of birth controls work.
854	To pull the tip of the condom if there isn't already room at the tip for semen.
855	To stay protected.
856	How not to get pregnant.
857	To use a condom, don't be stupid and don't use oral.
858	To stretch the condom to keep the cum in.
859	Other birth control.
860	I learned that safe sex is very important and if you don't protect yourself bad things can happen.
861	How to use a condom the right way.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
863	How statutory rape is kinda unfair.
866	That you can get diseases very easy.
867	How easy it could be to get a STD or HIV.
869	The love triangle.
870	Safe sex.
871	All the different kinds of birth control.
873	That you can get pregnant even with a condom.
874	Condoms.
875	I never heard of spermicide lube before and it seems to be very important to prevent pregnancy.
876	About HIV and STDs.
877	Everything.
878	How many birth control pills there are.
879	That you can look at someone and not know that they don't have HIV.
880	Building healthy relationships.
881	Everything.
883	To wear a condom.
884	The birth control types and how they work.
885	AIDS.
886	The most important thing I learned is about HIV.
888	About female condoms.
889	Trick = STD.
890	The important thing I learned is to always wear a condom when having intercourse, and how you can get HIV.
891	All about the new & old viruses.
892	The female period.
893	That almost every STD can be transferred to the partner by sex.
894	Every 1 in 4 children have an STD.
896	Don't have sex!
898	That HPV isn't curable.
899	I learned about all the diseases you can get and what you should do to prevent them.
900	How to prevent pregnancy.
901	You can get STDs with doing almost anything (oral, vaginal, anal, sometimes kissing).
902	About pregnancies and transmitted diseases.
903	How everything works in a woman's body.
904	I learned that you can get an STD from genital touching.
905	The risks I'm putting myself in.
906	How to prevent pregnancy.
909	Nothing.
910	Safe sex is important.
911	Teen pregnancy.
913	Birth control methods and EC.
915	I really didn't learn anything I didn't know. I suppose birth control, because I was going to go on it.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
917	That some STDs can't be treated.
918	Birth control.
919	Birth control methods.
921	The ways to get STDs.
922	The most important thing I've learned is how to say no to your partner.
923	Always use protection.
924	To be more cautious.
925	There is Plan B just in case the condom broke and you need a back up plan.
926	Emergency contraception, because I've always thought it didn't work.
927	The most important thing I learned was the many ways to say no, a clear "no," and alternative action and delay tactics.
928	I learned that anybody and everybody is at risk of getting an STD.
929	I learned more about STDs.
930	About AIDS and STDs.
931	Birth control.
932	The most important thing would be the need for birth control and not just a condom.
933	How many choices of birth control are out there.
935	About preventing pregnancy or some kind of sickness.
937	More Birth Control methods and how they work.
938	I learned that sex is not safe when not using proper care.
939	I didn't learn anything. Everything that was showed & talked about I knew.
940	That there are a lot of ways to help prevent being pregnant.
941	Different ways to prevent pregnancy.
943	How many different ways there were to prevent pregnancy.
944	About HIV/AIDS.
945	To have protected sex.
946	I learned the ways to prevent pregnancy.
947	I learned how to prevent a girl from getting pregnant.
948	Wasn't here until the last day and end of movie.
949	That if you don't want to have sex, don't.
950	How to use birth control.
951	Condoms prevent disease and both male & females should use methods in sex.
953	How to prevent pregnancy.
954	The most important thing I learned is how to be safe when involved in sexual intercourse.
955	The most important thing that I learned was the many options he had on birth control.
956	About the birth control methods and things like that.
957	Nothing I already know.
959	I haven't been here for most of this program.
960	Using condoms.
962	Safe sex is great sex.
963	The different ways not to get a girl pregnant.
964	I learned a lot about birth control.
966	Use a condom! All the time.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
968	That you can still contract a STD when using birth control.
969	How to prevent pregnancy.
970	Using a condom and birth control.
972	Always use protection cause you don't wanna catch anything.
973	The different types of birth control.
974	That some diseases are curable. Some are not. It's very serious.
976	How you can spread HIV.
977	The pyramid effect.
978	About the ways to control child birth.
979	Sex.
980	The symptoms of STDs, birth control, and getting pregnant.
981	Birth control.
982	The importance of a condom.
983	I kinda knew everything.
985	Birth control.
986	About a pregnancy and ovulation.
987	To wear a condom.
988	How to say no.
989	About STDs.
992	About STDs.
993	About STDs.
994	STDs.
995	Nothing really.
996	Use condoms.
997	I learned to say no.
998	That to protect your self is one of the best things.
999	Make sure to get checked before having sex.
1000	The bacteria and virus stuff.
1001	To use condoms when having sex and be careful of STDs.
1002	If you got a disease how the symptoms are.
1003	How you can get STDs.
1004	STDs.
1005	To use protection.
1006	Use a condom.
1007	To say no when I need to and to get tested every 6 months.
1009	IDK.
1011	Always use protection.
1012	I learned it will be hard making a baby at the age of 15.
1013	Everything.
1014	You can catch a disease by having unprotected sex.
1015	The most important thing I learned is what all of the diseases are and how you could catch it.
1016	I learned that it is not good to have sex without a condom.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1017	Not to have sex until I'm actually ready.
1018	How to have safe sex.
1019	N/A.
1021	The most important thing I learned in the safer choices program is all the diseases we can catch.
1022	How you get STDs & how to prevent them.
1025	Don't have sex without a condom.
1026	Really don't know it all.
1027	The most things I learned about is pregnancy.
1028	To use a condom if you have sex.
1030	Ways to prevent pregnancy from happening.
1031	I learned that you can possibly get a girl pregnant during anal sex.
1032	To say "no" to anybody.
1033	Always use condoms.
1037	I didn't learn a lot of things.
1038	How to say no.
1039	About HIV.
1041	Everything that was taught I already knew.
1042	Wasn't here.
1043	All of the STDs you can get.
1044	That if you have sex you possibly would get HIV.
1045	Learned more about being safe when you're having sex.
1046	No sex is the best way to keep safe.
1047	The most important thing I learned was about the STDs.
1048	You can still catch diseases - basically anything.
1049	About diseases you can get.
1050	Use a condom to reduce pregnancy and diseases.
1051	How to say no.
1052	To say no when you don't want or are not ready to have sex.
1053	I learned to tell my partner to use a condom cause it's something we don't do.
1054	Wear a condom at all times.
1056	The most important thing I learned in this program is life is not based on sex.
1057	Mostly everyone in my class is not a virgin.
1058	To use a condom.
1060	To wear a condom so I can't get HIV.
1061	I learned about different kinds of STDs.
1063	Condoms are very important.
1064	How often people get STDs and how important it is to use protection.
1065	How birth control and it works for females.
1066	The most important thing I learned was how to prevent pregnancy.
1068	Was that you should use a condom at all times.
1069	To trust no one and always use a condom.
1070	The most important thing I learned was how to put on a condom.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1071	To use safe sex practices at all times.
1072	How to say no and not telling them straight up.
1074	How you can have a disease and not even notice. People look normal and regular when having a disease.
1075	How to use sex right.
1076	How not to get pregnant.
1077	That using condoms is important.
1078	The way of preventing pregnancy.
1080	About preventing pregnancy.
1081	Not to have sex.
1082	Don't have sex.
1083	A lot about many different topics.
1084	How to prevent HIV and other STDs.
1085	About how the sperm stays in the girl for several days before dissolving, so she can still get pregnant.
1087	I learned about sexually transmitted diseases.
1088	The most important thing I learned was building a good and healthy relationship.
1090	The naïve choices teens make when having intercourse with a partner.
1091	About STDs - really don't want one of those.
1092	I learned about the disease you can catch during sexual intercourse.
1093	I learned that abstinence is the best choice.
1094	How to prevent pregnancy.
1095	I learned that there are a lot of diseases in the world.
1096	I learn the different ways that people can get HIV.
1097	The most important thing I learned were ways of having safe sex or don't have sex.
1098	The most important thing I learned is about pregnancy.
1099	The most important thing I learned was how to prevent sexually transmitted diseases.
1100	I learned a lot but most of it I remember from when we had this class in 7 th and 8 th grade.
1101	The way you can prevent from having STDs and from getting pregnant.
1102	All of the many birth controls.
1103	About all of the protection.
1104	How to not get a girl pregnant.
1105	Don't let your partner talk you into no condoms. It's not worth it.
1106	More about condoms.
1107	That you can say no. Use a condom and be yourself.
1108	I've learned that you could get sex [sic] anyway.
1110	I learned a lot but the most was about STDs.
1111	About STDs and AIDS.
1112	I learned about all the STDs and how you get them.
1113	That it is not hard to get a disease.
1114	That any kind of sex you have you are still at risk of getting HIV/AIDS.
1115	I learned that there's a lot of ways you can get lots of diseases.
1117	The most important thing that I learned is how it takes time to build a strong relationship. It takes time because it is not all about the looks.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1119	That not everyone is healthy.
1120	The most important thing I learned was always use a condom when having sex.
1121	Nothing.
1122	To stay protected when having sex.
1124	To always wear a condom when having sex and you can still get/have infections.
1125	I learned that you can catch some stuff by kissing and touching.
1127	Not to do it a lot.
1128	Well, I didn't know a lot because I have taken this before.
1131	That sometimes you can say "no" to sex and that life is too hard for this.
1132	The role playing.
1133	The relationship Pyramid was so helpful. Put things I know in an organized form.
1134	About STDs and their symptoms.
1135	Not to have sex.
1136	Don't get females pregnant.
1137	How to prevent pregnancy.
1138	Diseases.
1139	STDs and how they work.
1140	STDs.
1141	I learned that you shouldn't let peers get to you.
1142	No babies.
1143	The pyramid.
1144	That you should never force anyone.
1145	Not to have sex unprotected and to wait to have sex to prevent getting someone pregnant.
1147	The types of STDs.
1149	That being a pregnant teen is hard.
1151	Use protection.
1152	It's not good to get pregnant at a young age.
1153	The symptoms of the STDs.
1154	Everything was important to me.
1155	STDs.
1156	Pregnancy.
1158	That it is important to do safe sex.
1160	Really nothing.
1163	How to use birth control properly.
1164	STDs and ways you can get them that I never knew about.
1165	Birth control.
1168	Ways to say no.

1682	I learned the process your body takes during sexual intercourse.
1683	Protect yourself during intercourse.
1684	The most important thing I learned is the various types of contraception.
1685	How to put on a condom and all of the ways to protect yourself.
1686	How to prevent from getting pregnant.
1687	Using a condom.
1688	About safe sex.
1689	To be safe.
1691	How to say no.
1692	How to say no.
1693	Abstinence is the 100% way of not getting pregnant or a STD.
1695	The most important thing I learned was that abstinence is the 100% effective way to prevent STDs and pregnancy.
1696	The most important thing was HIV.
1697	Abstinence is the only 100% way to not get a STD.
1698	I learned about my body, about STDs, and what they look & what they do.
1699	Birth control works.
1701	The most important thing I learned was about STDS, HIV, AIDS and Birth Control.
1702	I learned that mistakes happen (ex. Ripped condom) ineffective pregnancy preventions.
1703	What goes on in your body when you let anything just happen.
1704	How STDs are spread.
1705	The most important thing I learned is how to prevent getting HIV/AIDS.
1706	Reproductive system.
1707	The proper use of a condom.
1708	That latex condoms are the safest kind.
1709	To stay abstinent.
1710	The ways to prevent getting pregnant.
1711	Contraception and risk factors.
1713	Abstinence is the safest choice.
1714	That birth control is a smart thing.
1715	How the reproductive system works.
1716	The most important thing that I learned is how easy it is to get a girl pregnant.
1717	When having safer sex, or not having sex at all, are the best ways to not get pregnant or

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
	get an STD.
1718	Use a condom from now on.
1719	How people can get HIV from oral sex.
1720	I learn about what type or pills a girl can have.
1721	How to use a condom properly even though I know how to do it.
1722	The most important thing I learned is the way to have safer sex.
1724	Ways to prevent pregnancy.
1725	You don't know who got HIV.
1727	I learned that AIDS looks regular [<i>sic</i>].
1728	That you don't have to have sex if you don't want to.
1729	I learned that all boys are not the same.
1730	Everything, because it was all new to me. I've never seen things like that, that can appear on my vagina.
1731	The most important thing is diseases and you don't have to have sex with everyone you go out with. You don't always have to have sex in your relationships.
1732	The ways to prevent diseases and protecting yourself.
1733	What I learn that is most important to me is an STD.
1735	Peer pressure.
1736	Today I learned about STDs and how you get it and how it destroys your life.
1737	I learned to get to know a person before you just give your body away.
1738	How STDs come and how to prevent some of them.
1740	STDs can appear easily, I can actually go to someone and talk about sex.
1741	How to wrap up before having sex. How and what you can get from sex.
1742	Ways to prevent STDs.
1743	I learned to prevent STDs.
1744	The most important thing I learned was about the sexually transmitted diseases.
1745	Building healthy relationships.
1746	About the different STDs.
1747	How you can catch diseases.
1748	Use a condom when you want to have sex.
1749	Certain STDs and how to build a relationship.
1750	About HIV/AIDS.
1751	How to prevent & saying no to sex.
1752	I think it was the most important when we talked about STDs and statutory rape.
1753	What the disease can do to you.
1755	Say no to sex.
1756	Even if you have sex with condoms you can still contract some STDs.
1757	About how to say "no."
1758	About not getting a girl pregnant and saying no to sex.
1759	Safer choices.
1761	The ways that you can catch sexual deseases.
1762	That just because you think a girls vagina looks good doesn't mean it is.
1763	How to spot a STD.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1764	How relationships are built.
1765	What the diseases look like.
1766	Everything because without safer choices my life would be on the line.
1767	The most important information was about the foundation and STDs.
1768	That you might as well just wait to have sex when you are older.
1769	I learned that it is better to say no to sex and wait until you are ready.
1770	How to treat some STDs.
1772	I learned a lot of different things.
1773	Basically everything. It's all something I should pay attention to.
1776	What STDs look like and what it does to your body.
1777	My body and how it works and also building healthy relationships.
1779	I learned a lot about STDs.
1780	STDs.
1781	Building strong relationships and making it work.
1782	About all of the types of diseases and infections.
1783	How you can get things fast.
1784	The most important thing I learned was about the STDs.
1785	The STDs and how you get them.
1786	The most important thing I learned in the safer choices program is how to respect myself.
1787	About all the different STDs and how you get them.
1788	About all the different STDs and how to build a relationship.
1789	The most important thing I learned was the STDs.
1790	How you can have a healthy relationship without sex.
1791	Ways to prevent pregnancy and sexually transmitted diseases.
1792	The most important thing I learned was the STDs.
1793	The different STDs.
1794	That you can get an STD just by rubbing against someone.
1795	I don't know.
1796	I learned about my body, STDs and how you can get them & prevent them.
1797	That it is important to look at yourself.
1798	About all the STDs.
1799	Not to have sex.
1800	That people can get sexually transmitted diseases by skin to skin touch.
1801	The most important thing I learned is how to get and get rid of STDs.
1802	Don't have sex because I want to.
1803	I like that she taught us about sex.
1804	About the diseases.
1805	The STDs and how we need to check our partner out.
1806	Try not to get STDs.
1807	How a good relationship is supposed to be built.
1808	Get HIV or AIDS.
1809	I learned all about STDs and how to have healthy relationships.
1810	How to say no to sex even if you don't want to, it does not make you a punk.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1811	The most important thing I learned was about sexually transmitted diseases.
1812	How to prevent STDs.
1813	About all the different types of diseases.
1815	I learned about STDs and if they are curable.
1816	The things about STDs.
1817	The most important thing was about the diseases and how they work. Also to be careful and get checked.
1818	I learned about other STDs you can get with using a condom.
1819	The most important things to me was learning about STDs.
1820	The most important thing I learned was how STDs are transmitted and how they effect your life and body.
1821	The most important thing I learned about in the Safer Choices program is STDs and how to prevent them and how you transmit them.
1822	About STDs, about how the discharge looks and infection it gives.
1823	STDs.
1824	I think the most important thing was all the STDs.
1825	The most important thing I learned about in the Safer Choices program is about STDs.
1826	The STDs and the pictures help a lot to see for myself.
1827	STDs.
1828	STDs.
1829	The most important thing I learned was I'm a lady and I'm supposed to respect my body at all times.
1830	Never have sex with out condoms.
1831	How to build a relationship.
1832	How to stay protected.
1833	About all the STDs.
1834	STDs could go anywhere on your body.
1835	Why we should wait to have sex.
1836	What STDs and other transmitted diseases look like and what to watch out for.
1837	Saying no to sex and STDs.
1838	I learned about STDs I've never heard of and learned about everything there is to know.
1841	How to use a condom properly.
1842	No sex is the safest sex.
1843	How to resist pressure and ways to say no.
1844	Safest sex is no sex.
1847	Condoms.
1848	How to practice safe sex.
1849	The body fluids that transfer AIDS.
1850	N/A.
1851	How to make safer choices.
1852	Use condoms.
1853	The age required for sexual health care.
1854	You can get HIV from oral.
1857	Didn't learn much.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1861	The safer choices during sex.
1862	Ways to say no.
1863	How people's life is after a baby is born.
1864	The most important thing I learned was always use a condom.
1866	Things to prevent pregnancy.
1867	Abstinence.
1868	Safe sex.
1869	About condoms and birth control.
1870	Everything.
1871	I know everything.
1872	The fact that there are lots of girls who are pregnant under 18.
1873	Different kinds of protection.
1874	Abstinence is the only 100% safe way to avoid STDs and pregnancy.
1875	None.
1876	That skipping birth control just once can cause a pregnancy with unprotected sex.
1877	The most important thing I learned was to always use protection.
1878	Saying no – it's not bad.
1880	Use protection.
1881	About condoms.
1883	How you can get HIV.
1884	The knowledge of STDs.
1885	Everything.
1886	The stuff about sex.
1888	STDs.
1889	I learned what it takes to have a healthy relationship.
1890	I learned about AIDS and HIV.
1891	My body and how it works.
1892	Safer choices.
1893	About the diseases.
1894	How people get stuff.
1895	Preventing disease.
1896	About STDs and HIV/AIDS.
1897	HIV is real.
1898	How diseases are transmitted.
1899	How not to get HIV.
1900	I don't know.
1901	Not to get a girl pregnant.
1902	That you should always use protection and always control yourselves.
1903	A few moments of pleasure isn't worth the consequence of unwanted pregnancies or an STD.
1904	To have safe sex!
1905	Learning about dangerous diseases.
1906	That all young teens should make safer choices.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1907	I don't know.
1908	That you can go to a clinic and be tested with out a parent.
1909	Protection.
1911	Protection.
1912	To always be protected when having sex.
1913	I knew just about everything already.
1914	Using a condom the right way.
1915	You don't have to give into peer pressure.
1916	How to say no.
1917	Just say no.
1918	Just to say no.
1919	Pregnancy, Abstinence.
1920	How abstinence is good and how to prevent pregnancy.
1921	About safe sex.
1922	Saying no to sex.
1923	In the Safer Choices program I learned how to use condoms and I also learned that you can go to a different center to get HIV tested and I learned how to be safe while having sex.
1924	The most important thing I learned is to always protect your self no matter what.
1925	That abstinence is the best prevention.
1926	I learned how to be abstinent.
1927	Everything was important to me.
1928	Just say no.
1929	The most important thing I learned was about not having sex is the safest against STDS.
1930	Abstain.
1931	How to say no, what to do in certain situations.
1932	How to use a condom and ways to prevent from having sex.
1934	Saying no and using abstinence.
1935	Just say no.
1936	Ways to say no.
1937	Just say no.
1938	HIV could be inside your body for years.
1939	Just say no.
1940	Just say no.
1941	To say no.
1942	How things work.
1943	I learn that the best thing to do is not to have sex.
1944	About sex.
1945	To be abstinent.
1946	To use abstinence.
1947	Saying no.
1948	Yes, say no.
1949	Different types of HIV and STDs.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
1950	It is good to talk about it to us or to talk to your parents about it.
1951	How to not get a girl pregnant and no HIV/AIDS.
1956	Using a condom is very important.
1957	I knew most of the stuff we learned.
1959	An important thing I learned is using condoms is the best way to go.
1961	The most important thing I learned is that people who have AIDS can't pass it on with saliva.
1963	More about the different types of diseases.
1965	The statistics of pregnancies and STDs.
1966	What ways STDs can be transmitted.
1967	About all the different diseases.
1971	To make smart decisions.
1972	Although you may be on birth control or in a happy relationship having sex without a condom is not a good idea. In fact, not having sex at all is the safest choice.
1973	About saying yes or no when having, or before, sexual contact with someone.
1975	Don't know.
1976	HIV can happen to anyone.
1977	The safest choice is not having sex and knowing how to say no.
1978	That it is OK to say no and you can't always be sure about being safe.
1979	Ways to say No.
1980	That always tell your partner to have a condom.
1982	I learned that people with HIV and AIDS are like normal people.
1983	That precum doesn't have Sperm in it, unless you don't use the bathroom between times you've had sex (like if you did it once, then again a couple of hours later).
1985	Didn't yet.
1987	Don't know.
1994	That it's OK to be gay.
2001	I learned that it's OK to be gay.
2009	Don't know.
2010	How to protect myself from HIV and AIDS, etc.
2011	About condoms and different brands.
2012	You can get a STD from masturbation.
2013	The importance of a condom.
2014	That saying no is the best way.
2015	To say no and about the love triangle.
2016	I can just say NO!
2017	About being safe when having sex.
2018	How to avoid getting diseases.
2019	Spermicide may prevent STDs.
2020	How you can get HIV and STDs.
2021	That abstinence is the best thing to do.
2022	It's OK to have sex if you're in love.
2023	I learn that not using a condom is not good 'cause you can get STDs or get pregnant without wanting to.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
2024	How to use a condom!
2025	How to use a condom properly.
2027	STDs.
2028	About saying no.
2031	I learned all the ways to get an STD.
2032	The 4 F's; Fornication, Food, Fashion, Fighting.
2033	Just not to have sex.
2035	It's OK to say no.
2036	Saying no.
2037	Don't have sex but if you do a condom is the most recommended.
2038	How to use a condom & that oral is considered sex & you can get STDs from it.
2039	Using a condom.
2040	About condom usage.
2041	About popping a cherry.
2042	I learned different things about pregnancy.
2043	The most important thing I've learned was about how much protection to use while I'm with my partner.
2044	Being protected and preventing diseases.
2045	Use a condom.
2046	Birth prevention and pregnancy stuff.
2047	HIV and other ways to prevent them.
2048	That I should always use a condom with my partner.
2049	Nothing because I already knew the things they talk about.
2050	How to prevent STDs.
2051	Don't really have one.
2053	The most important thing I have learned is that no matter who you are with you should always feel comfortable about talking about sex & protection.
2054	The same way to go.
2055	The types of STDs out there.
2056	HIV/AIDS & pregnancy.
2057	That it is very important to use a condom and better yet not to have sex all.
2058	The most important thing I learned is the wait to have sex.
2059	Other ways to get HIV.
2060	How things could happen to normal everyday people and their lives can be changed in a matter of attest.
2063	About what STDs were curable and the ones that weren't.
2064	About HIV/AIDS and how many people are infected – it's real and it can happen to you.
2065	I learned the dangers of having sex.
2066	The most important thing that I learned in Safer Choice is that you shouldn't give in to pressure and don't do things when you don't want to.
2067	About HIV and AIDS.
2068	Preventing and getting HIV.
2069	The safest thing about sex is not to have it.
2070	That if you don't want to get any STD, don't have sex at all.

31. What was the most important thing you learned in the Safer Choices program?	
PRAID	COMMENT
2071	The most important thing I learned was about HIV/AIDS.
2072	How to prevent myself from getting HIV.
2073	Proper use of a condom.
2075	Everything.
2077	To use a condom.
2078	Safe sex.
2081	To use a condom at all times.
2082	How to properly use a condom.
2083	How to firmly not to have sex.
2084	N/A.
2085	How to prevent STDs.
2086	Treatable infections.
2087	How to properly put on a condom.
2088	How to use a condom.
2089	How to properly use a condom, sexually transmitted diseases.
2090	That protection is very important.
2091	How to properly use a condom.
2092	About how many STDs can go unnoticed. You can one and not even know it.
2093	I learned that you must always wear a condom.
2094	Everything I learned in the Safer Choices program was very important.
2095	The way to catch STDs.
2096	To always use a condom when having sex.
2097	To use a condom.
2098	The most important thing I learned about is the methods of protection and birth control.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
001	Giving out condoms and talking more about the sex than STD and prevention.
002	Give out condoms.
004	The program was great I wouldn't change anything.
005	You could probably make it more interesting
007	None.
010	You did a wonderful job and shouldn't change anything.
011	Give more information into more days. More days to learn.
014	I would say have more activities for the little kids.
017	Bring in a person with HIV/AIDS to talk about it.
018	Show us how to put on condoms.
019	Talk more about the body and its parts.
021	Get more into depth by having more than just 3 days for the program.
023	Use real life situation.
026	Give us more days to learn more.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
027	Way more days of sex education.
029	Your doing such a good job. No need for improvement.
030	There are 3 holes for the girls which one do we stick it in. How us how to use lube.
031	You should give out condoms and show people the correct way to put them on.
032	Could get a little more personal into the subject sex. Give out condoms and show proper way to put them on.
033	Talk about ways to prevent pregnancy.
034	More role playing.
035	The way women and men's bodies [work?].
036	You can make it better if you had a power point with images and give examples of what to use and not.
037	Pass around objects and models.
038	Have fun!
039	I think they should extend the days on having this program more than three days. Maybe twice a month, maybe three times a month.
040	You are doing a good job.
043	We should do more role playing.
045	Make the program longer.
046	I think they should talk more about ways to be protected.
047	You should have some more aggressive and serious role playing.
048	It should be longer so we can learn more because it's very important.
049	N/A.
051	Games.
052	Program could be longer and more information and movies and pictures.
053	More time.
055	It's already excellent.
056	None.
057	Already good.
059	Make the program longer than three days!
061	Come by every month for a week.
062	Show how to put on a condom.
064	None.
066	Bring in people that have STDs.
067	By having students being more active using activities, etc.
068	Bring in two people that have a STD.
070	You did great I just wasn't here one day.
072	Let us do more hands on protect. [project?]
075	Talk more about how the body works.
076	Bring pictures with actual infected people so kids can see it visually and not mentally picture it.
077	Show pictures of the virus.
078	Doing the program a little longer.
079	It's good the way it is!
080	To give more brochures.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
082	Male protection methods.
084	Give out more information where places are to get condoms, birth control, test, etc.
084	Make it longer so we won't have to do English II. L.O.L.
086	The program can be better with more hands on activities and more videos.
087	More videos about the topics and more "act out" type plays about scenarios a person can get into.
088	I think you should talk more about places and clinics where you can get treated and more about how the body works.
089	Demonstrations, real props.
099	I think the program is just fine the way it is.
102	I think you did a good job but you can talk more about peer pressure.
103	Get better videos with better actors.
104	Stay longer in the day.
105	The program was great, it's fine the way it is.
106	Expand the learning so students can learn about all parts of sex.
107	It's already good like it is.
109	Have the instructor teach us how to use condoms physically.
110	More in class activities. I loved the movies and the talks.
111	Building Healthy Relationships (more) & My body and how it works.
113	I thought it was put together well and shouldn't be done any other way.
115	Spend a bit more time on the love triangle because I need to know how to make my relationship happier and better.
116	Have more open discussions.
117	Keep everything the same.
118	Introduce more real-life stories concerning the consequences of sex.
119	No need for corrections.
122	Have movies that we can relate to, like more up to date movies not the old ones.
123	Pictures of the virus.
124	Games.
125	N/A.
126	I don't know.
127	N/A.
129	More time with the students.
131	It was cool there is no way you can make it better besides having food!!
133	N/A.
135	Bring kids in. Have a teen mother come in or a person who wants to talk about their problem kids, HIV, or any other issues.
136	Give video that show how most of the disease looks. You could also use PowerPoint's.
137	Give different example of people you can talk to (other than parents). Demonstrate us of condom.
138	Make it last longer.
139	Someone younger would be better because I feel they can relate to the younger crowd.
140	Hands-on things.
141	Demonstrations.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
142	Need more detail.
143	I think its great, no changes are needed.
144	Provide condoms for those who are having sex to prevent things from happening.
146	More hands on activities.
147	This program could use more manipulatives.
148	No, the program is an ideal program the way it is.
150	Teach something new.
151	This program can be better by letting the instructor instruct how to put on a condom.
153	N/A.
156	Give condoms out.
158	Maybe more time would be more helpful.
159	By pushing more towards abstinence.
160	N/A.
161	Use newer videos.
162	Enforce not having sex instead of telling children to have safe sex.
164	You could give better descriptions on symptoms that some people might have [due?] to STDs if they are just now finding out.
165	I really don't have any ideas.
166	I think there can be more information about these diseases now a day.
167	N/A. I like it how it is.
168	Just keep doing what you do. That's all.
170	You can make this program better by having more topics and information.
172	It's already great.
173	More pictures and more information about a lot more STDs.
177	You can make the program better by letting more students act out their thoughts.
178	We can do more music and plays to make this program much better than we might make the right choice forever.
179	Have someone come to the school once every week so if we have any personal questions that we don't want to say in class or ask our parents.
181	I don't think it needs to be better, I think it's okay.
182	Have us see how sex is performed.
183	It is most likely that you do not need to add anything.
184	Give out condoms.
185	It's okay.
186	I found the program ok (no suggestions).
187	This program should last longer with only three days there was only so much to go over and I feel I didn't learn as much as I could.
188	I think its good how it is and it doesn't need to be better.
189	I think you can make the program better by explaining how to prevent pregnancy.
190	Give us candy and drinks because I'm thirsty.
191	Give more detail.
192	None.
193	Every thing was good.
194	My showing more examples of people that went through these things.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
195	1. You can talk about things you think we don't know. 2. We can talk about what is inside us.
197	You all should bring in a real HIV/AIDS positive person and let them tell their story.
199	None.
200	More than 3 days.
201	Try to make it a bit more fun.
202	We could do more individual team activities.
204	Talk more about the foundation of a relationship. Also how to build strong relationships with parents or partners.
205	I think it's just fine.
208	I think that you can make the program better by not changing a thing about it. This was fun!
209	I feel the programs could be better if the question on the post and pre made more sense.
210	You can make slide shows if you have the materials.
211	Do more hands-on projects.
212	You can talk to a person one on one about the things you can get it if you have unprotected sex.
213	It's all ready good.
214	I like it just the way it is.
215	I like it just the way it is.
216	Give more tips on safer sex and how to use condoms.
217	It was already fun enough.
220	You guys can get longer times with us.
221	I think the program is really good. But if we had songs to remember the STDs and what they can do to us would be fun.
222	Keep it how it is. I love it, it's perfect.
223	Ways to make it better. I just think that the class should be for a whole week or 2 weeks because it was really fun.
224	Show slides of some diseases to interest students more.
225	I believe this program is great already.
226	I think you should give girls talks about pregnancy and vaginal things and boys genital things.
228	None.
229	No comments, you did a great job!
230	Well, all I can say is this program does its job really well and should continue doing what your do!
231	It could be more days.
232	The program is perfect the way it is.
233	Do more activities, other than that...you're cool!
234	You can give out pamphlets about the topics you are talking about to help the students learn better or have an experienced person.
236	Nope, good enough.
237	You should show the videos and do the role play thing because it will make them understand sex comes with consequences as well as it comes with pleasure.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
238	You could make the program better by getting up to date movies.
243	You should use condoms and birth control!
244	Give us places and cost of protection like condoms, birth control, shots, etc.
247	More videos.
249	Telling us where to get free testing.
250	Well there's really nothing wrong with the way it's done now.
251	This program is very informative. You should talk about relationships so that when we have sex we know that the person is the right one.
254	Thank you for coming and please come again.
255	It was great and very informative.
256	Activities that will help kids understand how pregnancy can change your life.
257	Longer amount of days.
258	You did just fine. Keep it up.
259	I like the program the way it is.
262	You could make the program better if it was made for active.
264	Try to show some videos from 2009.
266	They could have more videos and fun activities about Safer Choices.
268	Maybe more real life stories can help and more open discussions.
269	You could explain in depth a little bit more on how to use the things to prevent pregnancy.
270	Give teens a choice in speaking freely if they want. Have open discussions about the topics. Everyone has their own opinions.
271	You should bring in condoms, because that's why some people have unprotected sex because they don't want to buy condoms.
275	Free food! Snacks only!
276	I think you guys could maybe make a movie or even a play about the topics we learned.
278	You should pass out condoms.
279	You guys need to show more videos.
281	The program is already okay but there is always room for improvement.
282	Recommend places where you can get tested without parents consent.
283	Tell different people.
284	You should discuss more too on the post tests and use this as a guide to know more things.
285	Show pictures of disease (Chlamydia, HPV, etc.) so teens will know what it looks just in case they come across something they're not sure about.
286	I think your program is cool.
288	?
289	Scare the teenagers more.
292	Have fun activities.
293	Bring in props.
294	Have more hands on activities that allow the students to better understand the male and female body.
295	More interactive.
296	The program is already great.
297	Don't have anything yet.
299	Give out condoms.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
302	It was great!!
304	Examples.
305	More visual aids, snacks during the video and a more informed approach.
306	More current video and more activities to learn about sex, contraception.
307	Give out condoms.
312	The program would be better if the class lasted way longer than 3 days.
313	I like it just the way it is.
315	Try to give more graphic examples in the movies.
316	Have more days to work with student because we learned a little.
317	Give out and show how to properly use both condoms.
318	Teach us methods to feel comfortable with saying no.
319	Talk a little bit more about having sex and what you can do to prevent getting a STI.
320	First timers, and how to.
322	Make it longer.
324	Get new videos and more information for men.
328	Bring condoms to give out.
329	That is it.
330	Nothing.
333	Giving us [?] condoms.
334	I don't have anything to say or add to the program.
335	None.
336	That HIV doesn't go away.
337	Give us condoms!!
338	I think that this program is perfect. I get enough information from any topic about sex.
339	How to build a healthy relationship with your boyfriend/girlfriend.
340	I think they should show female condoms and how to use them.
344	I don't have any ideas I like the program just the way it is.
352	By playing trivia games about sex.
355	[Seen?] more females teacher to teach the guys.
358	Showing a real video of a woman giving birth and how scary it is.
362	How STDs are caused.
363	I don't know yet.
364	Give out pointers about sex.
365	I don't know.
367	Show a little more safe choices on not to have sex.
369	The students should be able to move around in activities just to get themselves involved.
370	Make it more hands on, have students teach what they know.
372	Have a better video and what could happen during sex.
373	By having younger people that we can relate to.
374	Give more visuals because I think it could scare the kids better (9 th & 10 th).
375	Talk deeper about it, we are not kids anymore and we have heard almost everything. Give it to us straight.
376	I don't know it's good enough.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
379	Forgot.
384	It was good.
386	Bring pictures of infected people to show children what symptoms look like to impression them to get tested if they have those things.
387	Get in to it a little more.
388	I don't know I feel that you all are doing a good job.
390	Nothing, did a fantastic job!!
394	Bring dummy and show us where the penis goes in the vagina and where the baby goes.
396	I think that this program would be better if you all could give out condoms because that's how most girls are getting pregnant.
398	They should show us one on one things.
400	By letting students do examples on their own also watch the movies.
403	Talk about more.
404	Update the videos please.
406	Make them not so scripted.
407	By having live demonstrations in class so we can see how things work.
408	Movies on sex education that are more in depth!
409	Bring condoms, show us how to use them, be more explicit, go deep into question and be brutally honest. Need to bring condoms to us. I like the question bag.
410	I think you should have classes on the correct way for a boy to put on a condom and show a video on how the girl condom is put on.
411	Get demonstrations back.
414	N/A.
415	I don't know.
416	?
417	By letting the presenter show us demonstrations on how to use condoms, birth control and other things.
418	Show demonstrations in person so we can actually see what it feels like.
426	Maybe to show how birth control works and what to do with it I guess.
433	It made me think.
435	You're doing a great job.
436	Give more information.
438	Talk more about not having sex.
439	More movies on the program is better because the movie really inspired me.
440	By going around and giving people information about this program.
443	Get it out to everyone.
444	It is fine to me and very informational and clear.
445	I'm really not sure we should one day have a hands on project.
448	Show some black people.
449	Give out condoms!
450	You should have more videos, they're interesting.
451	I think the program is fine and doesn't need any improvement.
452	Talk about how to say "no" if you really like the person and they want to have sex with that person.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
454	Update the videos and make it more current because some of the things talked about are irrelevant.
455	Be tougher on loud kids! L.O.L.!
457	I really don't know.
459	I think that the program is good, it makes me feel more confident of the decisions I make.
462	N/A. It's wonderful.
463	Make it fun have kids to learn the Safer Choices.
464	Talk to the females about how the male body works and the males how the female body works.
466	To make this program better go to every high school and middle school.
467	It's just fine how it is.
468	Give out condoms.
469	I was a little confused between genital warts and pubic lice and herpes they all form bumps but how do you recognize which is which? Can you show more details?
470	You know everything.
471	To have this program only with boy and girl classes and to be shown how to properly use a condom.
473	You can make it better by giving us condoms and a lube.
474	Give out free condoms.
475	Show more movies that show what you can get for having unprotected sex.
477	Give out condoms and other things to protect against STDs and pregnancy.
478	Give out condoms.
479	Give out condoms.
480	I think that for this class one gender classes should be both gender classes. I think that they should be able to give out protection and have pictures or tools to show students how some things work.
481	The program is just right.
483	To make it more fun than nasty.
486	By having a young teen mother talk to the other teens in the group.
487	Use real life people who had those things.
489	Bring condoms, big sizes.
492	You did a good job.
493	Give out free condoms.
494	It's ok to me.
495	You should talk about the different type of condoms there are and does sex hurt for those who may not know.
496	The program was very good, thank you.
497	Don't have any.
498	By talking to kids from 6-12 all over the district.
502	Keep telling kids the TRUE FACTS about sex, STDs and Abstinence.
509	Show videos, bring materials that have to do with the subject and explain more about certain things.
510	Talk more on how teens should not get pregnant.
511	Making play, let people our age that has a STD or got pregnant at a young age.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
512	They can go into more details about STDs.
513	I think you should make up games to play about AIDS or pregnancy.
517	Pick videos with realistic acting.
519	Be more specific about things.
520	N/A.
521	To show us how to put on the female condom.
523	You can make it better by brining more videos and by explaining things better.
524	They way the program is now works perfect.
525	None.
532	It is fine how it is.
533	Talk more about STDs and symptoms.
534	Better actors in the movies.
541	It's great! I don't think you need to change anything.
542	Make more interesting videos and more realistic.
543	By bringing some items to the school and show the students.
545	Give a little bit more information on different topics.
546	It's good the way it is.
549	Give out condoms to people who have parent permission.
550	Probably show us the condom and give some out to people who want them to probably use.
551	Making a demonstration of the things we learn.
552	More information on how to say no by not saying it.
554	Bring in people with AIDS or HIV and show them what happens when you're not safe.
556	You can make a full movie from a new school kid to a father as a teen to show students about life.
564	Give out condoms and explain relationships better.
567	Fine the way it is.
569	Use real teenagers and not actors on the tape or DVD.
580	No comments.
587	I think it was fine the way it was.
588	Don't have ideas.
594	Bring people in who have experienced it.
600	By people that have experience.
606	I think the program is good enough. It can't get any better.
607	I feel that the program is very good.
608	I don't know.
609	You can probably just have the teachers more things than the students.
610	Bring in a person that had experience with HIV/STDs.
611	Talk about abortions more.
620	Don't know.
621	Bring in teenagers that agree with what is being taught.
624	When do we know when boys want to have sex without saying it? How they act.
625	If they showed more movies.
626	I don't know.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
627	We can try to tell young students what not to do.
628	No idea.
630	Talking about pregnancy.
638	More movies.
641	I think that they should have picture and/or videos to show what it looks like.
642	I don't know.
643	I don't know how but you can give away free condoms, birth control pills and other things to help people in need of them certain items.
644	Let you see some better stuff about condoms and movies.
645	I don't have any.
646	Don't know.
648	Distribute condoms and show more pictures of the STDs.
650	You can make the program better by giving out some condoms.
652	It is already good.
655	Give more stuff to teens to think about what they might get into.
656	I think the program is good as it is.
658	The program is good the way it is.
663	You should show videos that better explain and show what they mean.
668	It was fine, you did great.
669	Talk more.
672	Give free condoms and stuff like that.
674	It's okay how she did it.
679	You basically have it down pat.
680	No.
684	I think there should be more information given and maybe even videos so we can actually see the things that go on. And, extend the curriculum because everything we learned I learned in middle school. I also feel that three days is not enough to really inform us.
685	Talk more about the body and how it works.
686	How to have safer sex.
688	Have more classes other than three sessions.
689	To teach us what we don't know, not what we've been taught since kindergarten.
691	Have more interacting activities.
692	Talk more about how to resist peer pressure and say no.
693	You could probably change the lessons and make them more advanced according to grade level. You could teach older levels about condoms and how to have safe sex rather than teach about the same thing every year.
694	Maybe you guys could maybe show us how to prevent pregnancy.
695	The speaker needs to be more demanding and tell the students to shut up because it was too loud and noisy and I didn't learn much.
696	Make more demonstrations.
697	I feel the program did a good job.
699	Start teaching us as an upper level not middle school. You guys should teach us stuff we don't know not what we've been learning since 4 th grade!
700	I think we should have more days to learn about sex education, but overall, the Safer

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
	Choices did good.
702	I don't have any ideas.
703	I don't know.
704	More physical activities and better conversations.
705	You can talk how to make better decisions about sex.
707	A way you could make this program better is by giving visual aids or examples on things like how to put on condoms.
709	Make the program last longer.
712	You shouldn't change anything about the program! The program has taught me a lot of things I didn't know.
713	Program is good just thought I might have need to know stuff earlier.
714	You should come more than three days a week. I feel I would have learned more even though I knew most of this.
715	I knew most of the stuff being talked about so my advice would be to talk about more!
716	I think your program is cool how it is.
717	I like the program just the way it is.
719	Maybe if we had more than three days for this program to last, I would've liked to have had this class a little longer.
720	Try to interact with the students more but don't make a student discuss something they don't want to discuss.
721	More interaction, more open talking, and also maybe put girls from boys.
722	I think it's good the way it is.
723	Talk more about deciding to have sex.
724	Nothing.
727	I'm really not sure.
728	I think it's perfect.
729	Give more detail, make the learning experience more fun with games or provide more role play.
731	The program could maybe be a little longer because then we can learn way more.
733	Perspectives from boys and girls sides. Not just girls.
734	Spend more time on relationships.
735	Extend the time period.
736	I don't know anything.
740	You can make this program by doing like a question-answer session to answer the students' questions.
741	You can give out condoms to whoever wants them. You can have an anonymous question box.
742	I think the program is good enough as it is.
743	It would be better if I had a better understanding of the consequences of sex, in detail.
744	Maybe by brining in movies or plays/skits. Also bring in more hands on things and more activities.
745	Not being too descriptive about AIDS and HIV.
746	Tell girls what they can use to not get pregnant.
747	Get in deeper.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
748	I think that in each grade level you should learn more because in 6 th grade I learned more stuff.
749	Extend the amount of days.
750	The educator should ask the students questions to see what they know, so that he/she won't re-teach that. It makes us bored! Thanks!
751	I feel that you can get into much deeper detail and have demonstrations.
754	I learned most of this in the 5 th grade and every time someone comes they never realize to be more realistic.
756	I believe it is great and needs no changes.
757	You can get younger educators.
758	Longer course.
759	Bring up more topics and use better details.
760	I have none, it's already very good.
761	You could make the program better by supplying more pamphlets and handouts.
762	It was a good program we talked about all of the main things.
763	Give us a paper, packet, etc. with all the information in case we want to refer back.
769	IDK.
770	I don't have any ideas.
771	Talk more about ways to prevent baby making.
773	Talk about girls not getting pregnant.
774	Teach students how to use protection.
775	Show the students how to use condoms.
779	Don't talk too much, just watch interesting movies.
781	No, I don't.
784	Less talk about random stuff.
788	By giving more examples on ways to say "no!"
789	You're fine how you are.
794	You guys do a good job already but how do you put a girl condom on?
795	Bring in students who can tell us what they've learned.
798	You should have more interactions involving the students more. For example, one school gave each student a condom and a banana and told them to insert the condom on right.
799	Give us food, pop and candy.
800	I think you guys have a great program and you don't need any improvement.
801	Find us a way to get tested without going to the free clinic.
804	It's fine the way it is.
805	Show more things in the classroom besides movies.
806	Have the students review everything they learned.
810	Probably talk to people who have kids.
811	Give a little more info about what type of condoms and give some out.
812	No comment.
814	Don't have sex that much.
815	On ways how to resist peer pressure.
816	I don't know.
820	This program is good the way it is. I like this program very much.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
821	More information teens don't know about.
822	Talk more about diseases, talk more about pregnancy, play more plays with students.
823	It could be better if they bring things like dolls for examples.
824	By having hands-on activities.
827	Show photos of what the STDs look like.
828	I think you should provide condoms in the program and talk a little bit more about us having sex.
829	I think you should be more detailed.
830	I think it is already good they taught me what I wanted to know.
832	None.
833	Stop being so uppidy and dress more appropriately.
835	The program is fine and does not need improvement except for the outdated videos.
839	Show more videos.
841	Have more programs and open up more to the community.
843	Teach us something interesting.
845	Tell them about the emotional side about having sex.
847	The programs find this is a great way to help us teens make better choices before we have sex.
849	You should have diagrams and models that you can show us so we can really see how things work.
850	More information needed for same sex/homosexual safety. This was a very Heterosexual oriented program.
851	Bring pamphlets on different types of ways to prevent pregnancy.
853	The ways to prevent pregnancy.
855	Newer movies.
856	Show the video.
857	For starters update the videos to modern times. Show kids what the diseases really look like instead of a glimpse.
859	Show more details.
860	I don't know.
863	Make it longer with longer movies.
866	You can have better movies.
867	You guys do good enough with the info you have now.
869	Get newer movies. A movie called ways to say no.
870	None.
871	Hand out condoms or samples.
873	Use actual models.
875	Talk more about diseases and infections.
876	Do a little more activities - more than just a movie.
877	None – good.
878	I don't know.
879	It's good as it is.
880	I don't know.
881	None.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
885	It's fine now.
890	You should know more information about the STDs so you can know the answers to what some of the children ask.
896	More time.
898	Talking about the dick more.
899	By showing examples.
901	Condom demonstration, but other than that you guys are good.
902	Showing teens how to put on a condom and showing best ways for safe sex.
903	Do more activities, kids would be way more interested.
904	Don't have any ideas!
905	They should show how to properly use a condom.
906	Don't know.
910	Live show.
912	What my life could be like if I had a baby.
913	Show more ways to resist sex if you're not ready.
914	None.
915	None.
917	I don't know.
919	Bring in the birth control methods; condoms, things like that.
925	How to use and put on the condom.
926	It was fine.
927	Show pictures of STDs to scare kids (Chlamydia, herpes, syphilis, etc.).
928	We should play a game based on one subject.
929	Not sure.
932	I've had this program before and I think you should change it a little, give it more variety.
935	Well, I don't know, because the teacher I had was awesome!
937	It's cool to me!
939	Tell people things that they don't already know.
947	It's a good program.
949	To have more role play with updated scenes.
950	How to put on a condom.
951	Maybe give out free condoms.
954	The program was great, but it would be better if we had more demonstrations.
955	More ways to say "no!"
956	Give us demonstrations.
957	Give us condoms.
964	The program should give the students condoms. I guess!
966	I think it was good how it was.
968	I think they should teach how to properly wear a condom.
969	Hand out condoms to encourage people to use them.
970	To talk more about the diseases.
972	Get better videos!
973	Get better and more updated movies.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
974	New movies.
976	Update your movies, DUH! ☺ Love you always.
979	Get new videos.
980	Nothing.
981	I think it was great as is.
982	Talk about more things.
983	I don't know.
985	I think it should be some type of diagrams.
988	Have more role playing.
989	Great as is.
992	Nothing.
993	More discussions.
994	Yes.
996	Stay longer.
997	None.
998	There's none. This is a great program.
1000	Stay longer and come more.
1002	Make it more fun.
1003	None that come to mind.
1004	Sex.
1005	I don't know.
1006	Always use a condom.
1007	Do less projects and stay on topic more.
1009	IDK.
1011	None.
1013	It's just great the way it is.
1014	Did a good job (thanks).
1015	The program could be better by telling us how the body itself really works during pregnancy.
1016	It is good as it is, but we need more teenagers to look at how things work.
1019	Parties or fun things.
1021	Think y'all should giveaway condoms because some people would be scared to get some from the store.
1022	None. It's great as is. Maybe more games and longer time.
1025	Get more days in the program.
1027	Maybe have the class with the boys and girls to make the conversation lesson stronger.
1030	Show more videos about sex ed.
1032	Have more exiting games or good activity sheets.
1033	Give people condoms and candy.
1037	Have girls in here to make the play better.
1038	Bring slideshows and explain more.
1041	Keep doing what you are. It's a great program.
1042	Okay.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
1043	Demonstrations on how to use a condom.
1044	No.
1047	They don't need to change they program or make it better – it's just fine the way it is.
1048	Give longer classes and more information.
1049	Showing how to use a condom.
1050	Maybe show how a condom can properly be used.
1051	Being more open.
1052	Condom demonstrations!
1053	Give free condoms to everybody.
1057	No ideas.
1058	Give out condoms.
1061	Do what ever you want.
1062	Field trips.
1064	Being able to bring in items to show us (condoms, birth control, etc).
1068	To tell kids that they should not want to have sex.
1070	By showing more examples and pictures of STDs and another example of how fast sperm from a male can get inside of a female.
1071	Using physical examples of different sex prevention tactics.
1072	The program is good right now – you don't need to change the program.
1074	Letting us young ladies know how our bodies work.
1075	Nothing.
1080	None. It's good.
1082	It's a good program already.
1084	It is already OK.
1085	I like the program the way it is.
1087	N/A.
1088	Act out things like saying no, show examples of birth control and condoms.
1090	Let kids know that not only they are protecting themselves from parenthood but also sexually transmitted diseases.
1091	Show pictures next time.
1093	None.
1096	I think when doing this program we should have a room with boys and girls so we can get both points of view. And this will make the class more interactive.
1097	You can have more things about pregnancy.
1098	By teaching better and more things.
1101	N/A.
1102	More activities.
1103	It was already great.
1105	It's OK as is.
1106	Talk about everything and it's details.
1107	Give out different condoms or girl condoms.
1108	How you could say no and that you don't want to have sex.
1110	I don't know any better way they could improve.
1111	Not much to say - it's a good program.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1113	I think everything is OK with the program.
1114	Show some people how to put on condoms. Some people don't know how.
1115	I don't have any ideas.
1117	No ideas. It was a great experience, things I learned and about the STDs – it will help me make safe choices when I do meet someone I like.
1119	Show us how to use a condom.
1120	Using examples like objects.
1121	None.
1122	Get more in depth about AIDS.
1124	I do not know.
1126	You guys can make the program better by talking to us with more details and not something small.
1128	Tell us more how our bodies should act when having these things.
1133	The program is very good. Just about getting more kids involved.
1136	You're good.
1137	None. It's good.
1138	None.
1140	Give more information.
1142	IDK.
1147	More movies.
1149	The program is great how it is.
1152	None.
1160	Talk about bigger things and examples.
1165	I do not know.
1169	Newer movies.
1170	Update the videos!
1171	Better movies, more current in the world. Maybe actual demonstrations.
1172	The program is good as it is.
1173	No ideas.
1174	Get better movies! Talk about condoms.
1175	If they actually show us how to use the condoms properly.
1177	New videos.
1178	This stuff is old.
1180	I have no ideas, the program is good.
1182	There is nothing you can do. It's a good program.
1183	A lot and gets you prepared for the next time.
1184	It was good enough.
1185	No, it is all good.
1186	Have students write their question on a piece of paper, so it's anonymous.
1187	It was great.
1189	Talk more with the students and show videos about what happens.
1191	Newer pamphlets and movies.
1194	I think you should give out condoms.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
1196	I liked it. Nothing should change about the program.
1197	I don't know.
1198	It's good as it is.
1199	It's find just the way it is.
1200	I really think we should have seen how some of the STDs looked.
1201	Give out condoms and show how the girl/boy condoms work. It would help out a lot.
1202	It's already great!
1203	Get more in depth about things.
1204	To have more objects to explain how things work.
1206	Condoms.
1209	You bring in diagrams of things.
1211	Showing how to put a condom on.
1213	Talk more about diseases.
1214	It was cool to me.
1215	Just help me out.
1216	More videos, less talking or half and half.
1218	Use more hands on activity.
1221	The program should last longer.
1224	Take more time with the kids and really make sure they are listening.
1225	By showing us a movie or something different.
1226	I think this program is a great program and it gives you all the details you should know.
1227	Kids should watch little movies or plays about how couples get an STD.
1228	Show tapes about STDs, HIV/AIDS and how it looks throughout pregnancy.
1233	None.
1234	Candy!
1235	Most kids know this basic stuff it would be better to educate them on STDs...show pictures and the effects. Only that will make them cautious about sex. It did me.
1238	More movies that we haven't seen already.
1239	It's good already.
1241	Bring hands on activities.
1242	Show pictures and videos. Stories of people who have the disease and symptoms and how it's changed their life.
1244	They should bring condoms and all of the things to show because we have visual learners.
1245	A better like more interesting movie.
1246	Get snacks (or prizes)!
1247	By showing pictures we can see how these infections look.
1248	A model or an image on what the disease or the womb looks like.
1250	I want free condoms.
1252	Condom demonstrations.
1253	Condom demonstrations - distributing condoms.
1256	I don't know.
1258	Teach more descriptively and different material.
1259	I don't know. You guys are doing a great job.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1260	Show more examples if you can.
1263	The program is fine to me how it is. She discusses everything there is to know well - the important stuff. But if she was to talk a little more about how our bodies function that would have been nice.
1264	I personally think the program was bought about in a great way.
1265	I don't know.
1266	Video clips.
1267	Continue it in a different school.
1268	Just have a DVD player on hand in case nobody else has one available.
1270	There's nothing to change.
1273	N/A. It was a great program.
1276	Keep doing what you are doing.
1279	Make it longer.
1281	I will talk to my partner about what I have learned.
1282	More activities.
1285	I like it the way it is.
1288	Show more demonstrations.
1289	Do a couple of examples.
1290	Tell more about the body.
1291	Give out condoms.
1292	Give out condoms.
1296	It's already a real good program.
1297	Show us how to use condoms and show us how pregnancy happened.
1302	Better videos.
1305	Give clearer examples I guess.
1306	Make it more fun. Learn more about sex and the body.
1308	More people join it.
1309	I have no ideas. The program is good how it is.
1311	You can make the program better by talking more about diseases, pregnancy and peer pressure.
1313	I think that it is fine the way it is right now!
1314	We should have more hands-on activities. Other than that, it's fine.
1315	There's really no idea - you're doing great!!
1316	I think it's very good.
1317	It's already better.
1318	Bring young adults in who have experienced everything to talk to the other young kids about it.
1322	By telling them about being there to take care of their kids.
1325	Do what you've been doing.
1326	I always need to use a condom and don't have a kid too early.
1329	Tell kids not to have sex, because they will.
1330	You can make a play about all that we learned to show others that it's not a joke. It's real & it's part of life.
1331	More one to one, with people.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1332	Talk to another student.
1334	I would want someone to help me so I can get tested.
1335	You should teach this to little kids before they have sex.
1338	Have more people go out to schools, all schools, and talk to them about sex.
1340	Have more time.
1341	Have some games and give out condoms.
1342	Talking more about how male & female body parts work.
1343	Bring us some food next time. I would like to learn a lot more about sex.
1345	I'm not sure how to make it better.
1346	I have no ideas how to make this program better.
1347	By talking about everything like all the sexually transmitted infections.
1349	You tell me.
1350	I think you can make the program better by giving kids condoms because most kids are not going to the store just to get a condom.
1351	A better or new movie from our time.
1352	It would be better if there were more projects for the teens to do so that you know they understand you.
1353	By wearing a condom and persuading a girl or just ask them to get birth control.
1354	I think the program is already better.
1355	You can't.
1356	I think there should be more activities.
1357	Let teens everywhere know it is OK to use a condom.
1358	Keep on doing what you are doing in this very good and helpful program.
1359	By making the program better by giving out condoms because I am too lazy to walk to the store but I have condoms!
1361	No.
1362	Giving condoms out next time.
1363	Being more exposed to the outside world because some people still take what is being taught in the classroom as something minor when it is very important.
1364	You should show diagrams of boys and girls anatomy to help explain better about talking of them.
1366	Show more interesting videos.
1367	Give out free condoms.
1371	Pass out condoms to kids or teens who need them. Give out free tests as well.
1373	Give condoms and birth control out.
1374	More information.
1376	The placenta thing grossed me out!!
1377	Have more acting of interactive activities of situations.
1381	We should learn more about condoms.
1389	I don't know.
1390	Nothing, it was a good job.
1391	Being a little more direct and words more understanding.
1394	Nothing.
1397	All work and no play make John a dull boy.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1399	Give out condoms.
1402	Your program is the best.
1403	I don't know.
1405	Having teen people that are pregnant or that already have a baby come and talk to us about how their lives changed.
1406	Have more things to do.
1407	I think this is a good program. I can't think of something to change.
1413	By telling us more information about sex.
1414	You need to talk to me about condoms more.
1416	I don't.
1417	By stop coming to our school 'cause we know all about HIV and sex.
1418	Talk more about sex.
1422	By bringing in the real equipment and showing us how to properly put on a condom.
1424	You guys cover everything that I would recommend.
1425	No change.
1432	It's fine.
1438	By giving out condoms and other things.
1441	How to not get HIV or not get AIDS.
1447	You can make the program better if you could have talked about more things about sex.
1449	Nothing.
1451	Ideas are fine the way they are.
1453	I don't know.
1455	Make it more fun, play games and a lot more questions.
1456	Telling people or kids not to have sex.
1457	Involve more students and adults into the program to really give them an experience that they had to help them not to get into what they did wrong. (sic)
1458	Just make it feel even more like a real experience.
1459	Nothing.
1460	Bringing in the contraceptives to give us.
1461	You could give out protection.
1462	Provide refreshments every time.
1463	You can make it better by talking to all the girls out there.
1464	We people need to stop having sex for they can not get it.
1465	The program is good. It can't get better than this. It's great.
1466	Bring in people to tell us more and show real pictures about having sex.
1468	I don't know because you already told me a lot.
1469	Show some things that some other people may not know about like condoms and stuff like that.
1470	Play movies and maybe pictures.
1471	Making the program for young kids.They need to realize that in life it's not all about having sex. We need to talk a lot more about how to say no and don't get pregnant at a young age.
1474	Keep doing the same.
1478	I don't know.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1479	None.
1480	Explain and show more about how to put condoms on and take them off.
1481	I like it just how it is.
1483	Relationships with parents and talking about sex or boyfriends/girlfriends.
1484	I don't think the program needs improvement. I like it very much.
1485	Maybe if they give out condoms and stuff to the students.
1486	No suggestions.
1487	Asking things that I don't know.
1490	It is great so far for me.
1491	None. Keep up this program because all the girls need this!
1495	It's good how it is.
1497	Serve condoms.
1498	Learn about the origin of STDs.
1500	Showing videos with more examples.
1501	This is a great program. It's fine the way it is.
1503	None.
1504	Show better ways on how to use a condom for both male and female.
1506	Continue doing what you are doing. Make it 4 days instead of 3. Have more pictures and videos.
1507	Have pictures, skits and updated movies, and people come to talk to us about their experiences.
1508	I think the program and the best instructor and it is fine the way it is.
1509	I think what will make the program better is for all the teachers to keep it real and open up like Ms. Austin.
1510	I think that it should last for a month or so.
1511	Give more information on getting tested.
1512	It's OK to me.
1516	It's perfect.
1518	Everything was perfect to me.
1521	I don't know.
1524	More videos to show more information.
1527	There isn't anything.
1528	Show us how to use the condoms.
1529	The program is OK.
1530	A class at least every 3 weeks for kids.
1531	I think you should have updated videos and let the teachers do models on how to put on a condom whether it's a female or male.
1532	Talking to teens and that make the sex talk more comfortable.
1534	I think that they should be more specific about things.
1535	More videos.
1536	I think you should have hands on activities.
1537	How to insert a female condom.
1540	To show students how this stuff works.
1541	I think we should do more exercise or role plays. Instead of watching videos all the time or

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
	just talking. But nothing is wrong with the program. It's very interesting. I enjoy Ms. Austin being here.
1542	I think you should pass out condoms so that teens have protection.
1543	To make the program better it needs to be longer.
1544	It's perfect. It doesn't need anything.
1545	Showing us and not telling us how to use condoms (boys).
1546	If you were able to physically show the different ways to use a condom.
1547	Up to date videos about sex and STDs.
1551	Well, I like this right here.
1553	To talk to kids that are 8 th and 9 th grade.
1554	I don't know.
1555	I am not to sure. Maybe videos.
1557	Give us some more information that is important.
1559	It's fine the way it is.
1562	Everything.
1563	None.
1565	Teach about abstinence.
1567	Giving out condoms and showing how to put them on.
1569	I don't have none.
1570	No ideas. You are great.
1573	Didn't have the program.
1575	You can't.
1577	Have more activities such as teach how to put on a condom.
1579	I have no ideas.
1581	Give out condoms.
1582	Learning to say no.
1584	Safe sex.
1585	Make a more recent movie.
1586	You're fine.
1587	It would be better to show more videos of people and their stories about sex, so students can really learn from their mistakes.
1592	Teach further ways to prevent pregnancy.
1594	Teach more about relationships.
1595	The program is good. You learn things you didn't know before.
1596	You do great already.
1597	Get more involved with the students you are teaching.
1599	Let my instructor teach it.
1601	In my opinion the program is good like this – there is no need for a change.
1603	I think that everything was great and you should give more information to students on stuff to make them realize it's not a joke.
1604	Include more for us to learn.
1605	Better movies that our more in my time.
1608	Nothing.
1609	Nothing.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1617	Don't do it next year for seniors.
1625	Focus toward healthy relationships.
1633	I don't know.
1636	Perfect.
1637	They should show how to insert the female condom.
1638	N/A.
1639	N/A.
1643	Everything is great.
1645	N/A.
1646	Relationships.
1648	It's already a good program.
1650	Nope.
1654	Have us practice on bananas.
1659	I don't know.
1662	Have new material.
1666	Teach more about the importance of the body.
1668	Show exactly how condoms are used.
1670	Hands on activities.
1672	N/A.
1675	None. Great program.
1676	I think this program is good enough.
1677	I like what you're doing now.
1679	I think the program is OK like it is.
1680	You can maybe do some games.
1682	N/A.
1683	I don't know.
1685	Show us how people who have had sex live pay check to pay check, & show kids who have babies that are not 100% healthy or 100% normal.
1686	I liked it a lot! No changes.
1687	Bring students up for example so it's one on one.
1691	Talk more about problems and people with them.
1692	Talk more about relationships.
1702	There should be more games to make it interesting and prizes to make it more motivating.
1705	Keep doing this program in the different high school.
1708	Make it more interactive.
1709	You could give more examples.
1719	Give away condoms to kids in case they can't afford them.
1721	It is perfect as it is.
1724	I don't know.
1727	Have a male instructor.
1729	Show pictures of how our bodies work and things like that.
1730	Talk about rape and let girls tell their story and give them advice about themselves.
1731	I think the program is good the way it is.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
1733	If you show more pictures and have a lot of time to talk about it.
1735	I don't have any.
1736	I think it's all ready better because we are learning so much that we need to know.
1737	I think the program is fine just the way it is.
1738	Nothing really.
1741	I have no ideas because it's perfect for me.
1742	Make the classes longer.
1743	Well I really enjoyed myself and do some activities more.
1744	Having people with these STDs come in and talk.
1745	Bring our men in here and figure out what they are feeling.
1747	By showing more pictures.
1749	Don't know.
1751	Try to make a slideshow on a computer.
1752	Hand outs.
1756	None needed.
1759	It can't get any better.
1762	It's already good.
1763	It's good the way it is.
1766	N/A. It's perfect how you all teach.
1773	Give protection away just for safety for people who have sex or don't just to give an idea.
1776	The program is very good.
1780	OK.
1782	Using more time to learn more.
1783	Just keep doing what you are doing.
1784	If we have more time to learn more.
1785	Come around more often.
1786	N/A.
1788	Give us more time with Ms. Austin.
1789	I think you should stay longer.
1790	I would like to learn more about STDs.
1791	More time.
1792	You shouldn't make it better.
1793	I don't have any. I like it how it is.
1794	More time to teach the kids about more things.
1795	I don't know.
1798	It's alright you don't have to make anything better.
1799	Talk about more stuff.
1800	Start doing this more often.
1801	I like the program just the way it is.
1802	Nothing.
1805	To spread the lesson out, I wish it was longer.
1808	Talk about more stuff.
1809	Give us more time with the program.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1811	Classes should be longer.
1812	N/A.
1816	I don't have any ideas, I think the program is good.
1817	It's just fine right now.
1820	I think that the program doesn't need anything to make it better.
1821	The program is already given enough information.
1822	Private I guess. I don't know.
1823	I think the program is perfect the way it is.
1826	Having videos and people come in and talk to you about what they're going through because they have had it.
1829	I feel what I want to know is how to prevent pregnancy – would make the program better for me.
1830	Have more time in the class.
1831	Stay even longer.
1834	Talk more about teen pregnancy.
1835	Have the teacher stay longer.
1836	It's already good.
1837	May be do it for about two weeks.
1838	Offer a place to go or free clinics that your partner doesn't know about.
1840	Give out snacks or fruit.
1841	More hands on experience.
1842	Study more.
1843	You could show how to put on a condom because some people don't know how to correctly.
1849	No comments
1850	N/A.
1851	Make it interesting.
1853	More hands on activities. That'd be great!
1861	Talk more to a younger crowd; emphasis on the risks you are taking.
1863	The program could have a game about Safe Choices.
1867	None.
1868	Stop boring videos.
1869	It's just fine.
1871	I don't know. Stop showing us the same material every time. I know this stuff already.
1872	Get new videos and handouts.
1876	Nothing. It was good.
1877	Make it more talking, not all movies.
1881	I don't know.
1884	Shorten it.
1885	Nothing.
1889	We could have had more interactive activities.
1890	Just keep it the way it is.
1891	More info.
1893	Plays and talking to actual people instead of movies & papers.

32. Feel free to give us ideas on how we can make the program better:	
PRAID	COMMENT
1896	Give more plays with people our ages to interest us.
1900	I don't know.
1901	I don't know.
1906	Yes, a whole lot more to show people.
1907	I don't know.
1908	I don't know.
1913	I don't know.
1914	Less lessons.
1915	None. It's good.
1916	Have more participation programs.
1923	I think you should give the student more group discussion and have video or something that students can get involved in.
1924	Show more details like movies to explain about diseases.
1925	Elaborate more to students who are starting high school because they are the ones who are immature about this topic.
1926	Longer period of time.
1927	It's great the way it is.
1929	I think how you can make the program better is by giving more info on STDs.
1931	Be more hands on.
1932	Have people talk about their experiences with sex good or bad.
1933	Pointers on peer pressure.
1934	Nothing.
1936	Have seminars in school.
1937	Give more informational advice.
1939	It's fine already.
1940	It's alright, but show the disease you can get if you have unprotected sex.
1943	By involving the students.
1944	Come to the school.
1945	Be more specific.
1946	Don't ask the same questions twice.
1948	More info is always good.
1949	Don't bring the students.
1950	Do an article about it or a project.
1951	You're doing a good job.
1959	By teaching students how to put condoms on properly.
1961	To make the program better. I think students should have a visual of STDs so they could see why they should wear condoms.
1965	To make this program better, I think there should be an incentive, and more ways to show statistics, game-like.
1967	Don't be afraid to talk to the students, they have done more than you think!
1973	Videos and bring a real worker from the company.
1975	Don't know.
1976	We need more GLBTQ information.
1980	Show movies and how everything works or show how it begins.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
1983	Should teach more about resisting peer pressure, but keep insisting that no sex is the best and easiest way to stay safe.
2005	Hands on activities.
2010	You can tell more people not to have sex because that's the safest way to stay safe.
2012	Hands on activities.
2013	More hands on activities.
2015	More interesting.
2017	Little more info about resisting pressure.
2019	More about actually having sex and include Homosexual relationships in worksheets/talks. Free usable condoms.
2020	How to keep yourself safe from disease.
2021	I don't know.
2022	Explain and mention places to get tested, maybe support groups.
2023	I don't really think you need to better the program 'cause everybody knows a lot already.
2024	It's fine the way it is.
2027	More info.
2031	A diagram showing where STDs affect the body.
2032	Bring condoms.
2033	Hand out condoms!
2035	Give better info.
2037	More info on diseases.
2039	Putting a condom on the banana.
2040	Put condom on a banana.
2041	Bring condoms.
2043	Talk to certain groups of males & females about their personal problems.
2044	Show more videos.
2045	Ask what they would rather do in a tight spot.
2049	N/A.
2050	Don't get so personal.
2051	N/A.
2053	Stop asking personal questions.
2054	I can't think of anything.
2056	Don't ask personal questions, I feel very uncomfortable taking this test.
2059	Just keep doing what you're doing.
2060	Maybe to involve some young people. To take us somewhere to talk to people who are infected to talk to us and let us learn & see a different perspective of life.
2063	Address more topics & give more details.
2064	By starting to teach this in 8 th – 9 th grade, don't wait so long.
2065	Let some of the students put in their own personal experiences.
2066	Teach it in younger grades, and have a longer section because some kids are completely clueless when it comes to things like this.
2069	It is just right.
2070	They should show it more to younger kids.
2082	None. It is good.

32. Feel free to give us ideas on how we can make the program better:

PRAID	COMMENT
2083	Have better activities.
2084	I don't know.
2086	Talk more about joe lub.
2088	None.
2089	Get students more involved – hands on programs.
2090	Maybe it should be longer.
2091	Don't have any!
2092	Have people that went or is going through what most teens are going through.
2093	I think they did a great job!
2094	N/A.
2097	Teach more.
2098	Have representatives from the program come to schools more often. I think students like to have discussions about the subjects the program taught us about.

CMSD Responsible Sexual Behavior (RSB) 2009-2010 Evaluation
APPENDIX C: Comparison of Pre-test Scores by Intervention Year

Knowledge

Grade	Intervention Group 2007-2008 Pre-test	Intervention Group 2008-2009 Pre-test	Intervention Group 2009-2010 Pre-test
4	65%	64%	64%
5	62%	58%	57%
6	67%	70%	66%
7/8	65%	68%	62% ¹
9/10	72%	73%	71% ²
11/12	77%	80%	79%

Attitudes
