## **Community Solutions' Statements Commending Multi-System Youth Action Plan**

Community Solutions President John Corlett and Consultant Gayle Channing-Tenenbaum praise new plan

"The Center for Community Solutions commends Governor DeWine, Director LaTourette and leadership throughout the administration on the development and release of a Multi-System Youth Action Plan. Today's momentous release came about due to the Ohio General Assembly's strong commitment during the budget process to address the needs of multi-system youth across the state and to ultimately end the heart-wrenching practice of voluntary custody relinquishment that too many Ohio families have experienced."

**John Corlett**  
President and Executive Director  
The Center for Community Solutions

"Community Solutions was honored to be a part of a dedicated group of stakeholders who worked countless hours to help develop this action plan that will set Ohio on a path toward being able to wrap comprehensive services and supports around children with complex needs. We look forward to continuing to work with the Governor, his cabinet, the General Assembly and our fellow stakeholders to fully implement this plan."
