# Hamilton County- Ending the HIV Epidemic Advisory Committee Meeting

June 18, 2020

# Today's Agenda

- Overview of Roles, Process, & Timeline
- Introduction of Priority Populations/Working Groups
- Breakout Groups for Discussion
- Large Group Wrap-Up

# Role of Various Groups

## LOCAL LEADS

- Includes staff from HCPH and CARACOLE, as well as CCS
- Helps convene advisory committee and stakeholder groups
- Drives planning process

## ADVISORY COMMITTEE

### **SMALLER WORKING GROUP**

- Advises Health Department & consults throughout plan development
- Helps to plan stakeholder engagement
- Connects with stakeholder group(s)
- Lends expertise
- Determines criteria for evaluating strategies
- Adopts the Ending the HIV Epidemic Plan

## STAKEHOLDERS

### **DIVERSE GROUP OF COMMUNITY MEMBERS**

- Focus is on engaging high-risk priority groups
- Provides information that informs the situational analysis
- Helps to identify strategies
- Provides feedback on the draft Ending the Epidemic Plan

# Timeline: About 6 Months to Complete

## MARCH & APRIL

- Launch meetings with ODH & local leads
- **Develop advisory committee**
- Review available epidemiological data

## MAY

- Advisory committee meetings continue
- Begin key informant interviews

## JUNE

- Advisory committee meetings continue
- **Convene stakeholder groups(s)**

# Timeline continued

## JULY

- Advisory committee meetings continue
- **Convene stakeholder group(s)**
- **Complete Situational Analysis**

## AUGUST

- Gather feedback from advisory committee and stakeholder group(s) that **inform strategic plan and priorities**
- Convene stakeholder group(s)

## SEPTEMBER

- **Advisory committee signs off on plan by end of September**
- Draft and review EHE plan with advisory committee

# Timeline continued

## OCTOBER

- Advisory committee meetings continue
- Convene stakeholder group(s)
- **Submit plan to ODH with time for public comment**

## NOVEMBER

- Incorporate public comment into plan

## DECEMBER

- **Plan must be complete by December 31, 2020**

# What will be done with the information collected from stakeholders?

- Informs the *situational analysis*
  - the scope of HIV in each jurisdiction (e.g., epidemiology)
  - current activities in place to prevent HIV infection and effectively treat people living with HIV
  - **Most importantly: informs understanding of grassroots/informal programs that may exist & informs gap analysis**
- Informs the *Strategic Plan and Priorities*

# Priority Groups/Working Groups

PWID

MSM/Trans Women

MSM/Trans Women of Color

High Risk Heterosexuals

PLWHA

# Breakout Group Discussion

- Member introductions
- Discuss the best methods for getting input and feedback from community members in your priority group (eg: interview with case manager, paper survey, online focus group, etc.)
- Identify which members will reach out to which specific individuals, existing groups, or organizations (being mindful of confidentiality, especially around HIV status or drug use)
- Identify what supports your group needs from the local leads and CCS to be effective in reaching members of the community/priority group
- Discuss ideas for incentives for feedback – what stores, how to get people gift cards, etc.
- Identify Co-Leaders for the group: 1-2 individuals willing to help convene this working group and mobilize them to collect stakeholder input
- Set a date/time for next subcommittee meeting within the next 2 weeks (Option: groups can meet during our already scheduled AC meeting on 6/29 at 1:00)
- *If there is time*, discuss questions to be asked of people with lived experience (This could be the main goal of the next working group meetings)
