What We Will Cover

- Flow of Dollars
- Regional Response by EHE Pillar
 - Programming & Funder
 - Capturing Your Insight
 - This is a *first step*

The Bigger Picture

Ohio Department of Health Funding Sources

CDC

- EHE Health District Funding: \$3.2M
 - **Health Service Prevention Specialist: \$70k**
 - Epidemiology investigator: \$61k
 - **Contractor to administer testing at home program: \$300k**
- HIV Surveillance, Component A: \$870k
- HIV Prevention, Component A: \$4.8M
- STD Control Grants: \$3.1M

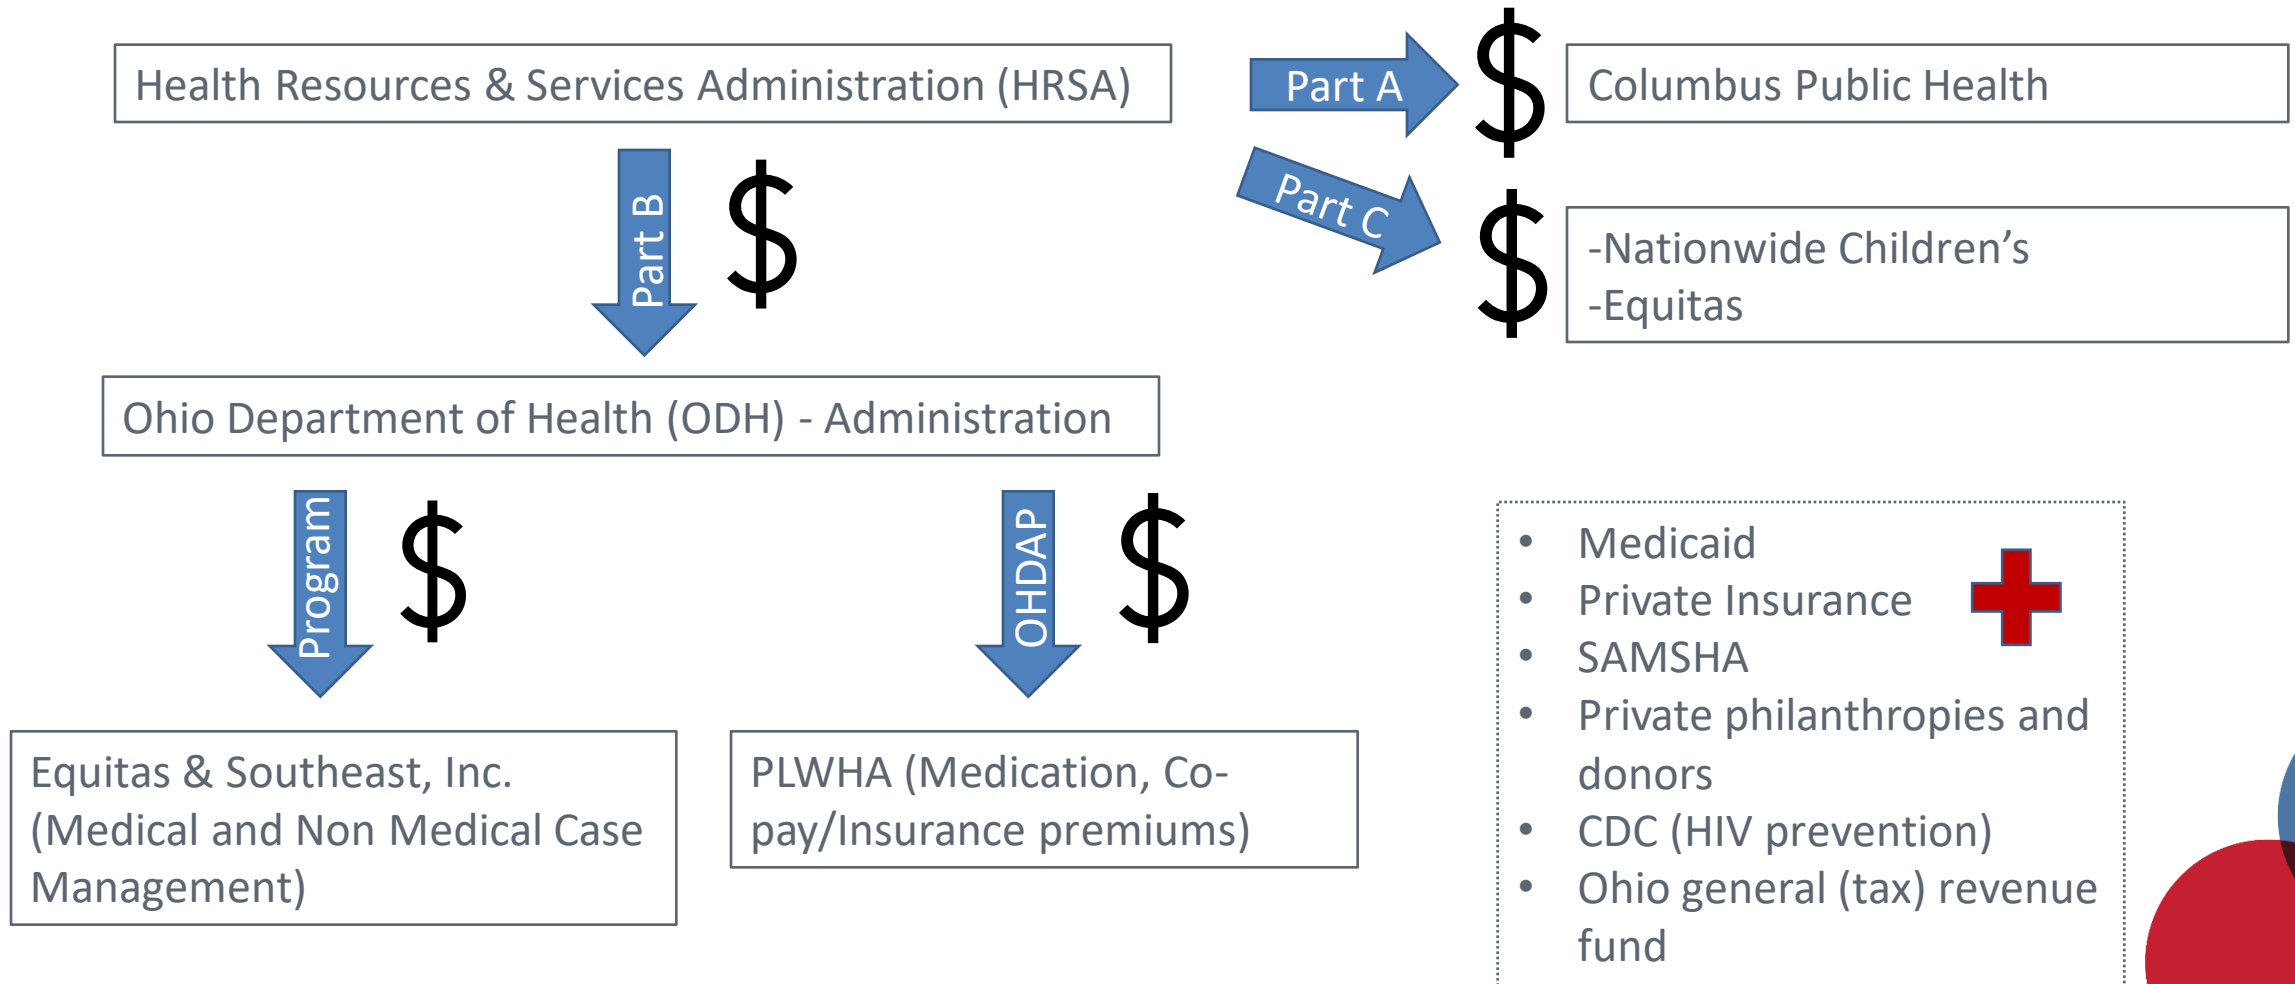

HRSA

- Ryan White Part B: \$7.2M
 - Covers MCM and NMCM
- Emerging Communities Award (Hamilton Co only): \$342k
- CARES Act Support for RW: \$641k
- ADAP: \$16.9M

Ohio GRF

- HIV/AIDS Prevention: \$3.5M
 - Personnel, testing, local funding support, TPA for PrEP
- Rebates (\$30M)
 - Supports open drug formulary, expansion to 500%FPL
 - Covers OAMC, medical transportation, translation services, mental and oral health & health insurance premiums

How it Works (Ryan White)

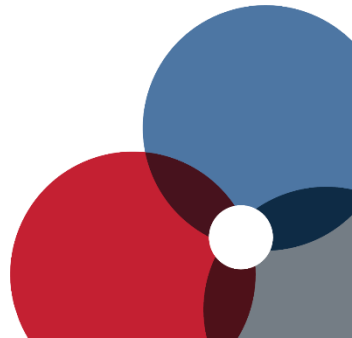

Pillar 1: Diagnose all Ohioans with HIV as early as possible after infection.

Continuum Crosswalk: HIV Positive & Unaware, HIV Diagnosed, Linked to Care

Activities supporting this strategy:

- Improved, more accessible, and routine HIV testing
- Immediately connecting people with HIV to care services
- Connecting those who test negative to appropriate prevention services

Diagnose

Program	Funder	Sites/Models
Routine* HIV testing – EDs	Integrated	OSU East <ul style="list-style-type: none"> • pilot for HIV/Syphilis Mt. Carmel
Routine HIV testing – CHCs, HDs, RHCs	CPH CPH Title X/ODH <i>HRSA/EHE</i> <i>HRSA/EHE</i> <i>HRSA/EHE/Gilead</i> <i>HRSA/EHE/Gilead</i>	Equitas Health (3) AHF CPH Planned Parenthood <i>Heart of Ohio (coming)</i> <i>OSU (coming)</i> <i>SE Community Mental Health</i> <i>Primary One (coming)</i>
Routine HIV testing – SUD programs	CPH/ADAMH	CPH outreach <ul style="list-style-type: none"> • Maryhaven • CompDrug • Centaro

*routine = culturally competent, barrier-free access to HIV testing offered to all patients

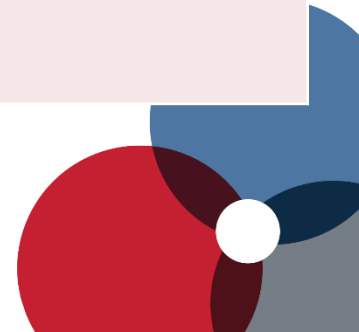

+public = Medicaid, Medicare

Diagnose

Program	Funder	Sites/Models
Targeted HIV testing in nonclinical settings	ODH/GRF + CDC/CPH (appendix X for details on sites) CPH Title X	CTR with cross organization team Equitas CPH - South End Bar (outreach focus) AHF Out of the Closet Thrift Store Franklin Co Jail (LGBTQ mens group and womens solicitation group) CATCH court
HIV testing in pharmacy settings	Walgreens HIV Specialty Pharmacy	Colocation with Dr. Beasley (ID)
Self-testing	ODH Patient	Ohiv.org Walgreens, CVS
Partner Services = DIS	CPH	CPH: HIV & Syphilis (& Resistant GC)

*routine = culturally competent, barrier-free access to HIV testing offered to all patients
+public = Medicaid, Medicare

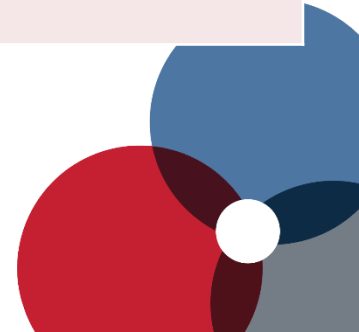

Diagnose

Program	Funder	Sites/Models
Linkage to Care	<p>CPH</p> <p>Equitas, AHF, CPH</p> <p>ADAMHS/GRF/Equitas</p>	<p>CPH</p> <ul style="list-style-type: none"> • Passport to Partner Services (DIS) • Reengagement & data to care (D2C) <p>CPH, AHF, Equitas</p> <ul style="list-style-type: none"> • Linkage to Care via cross organizational team (ARTAS-based) <p>Equitas, Safe Pointe (SSP)</p>
STI Testing	<p>ODH & integrated Title X</p> <p>Public+/private insurance & RW</p>	<p>CPH</p> <p>Planned Parenthood & CPH</p> <p>Network of providers including CPH and RW providers</p>

*routine = culturally competent, barrier-free access to HIV testing offered to all patients

+public = Medicaid, Medicare

Diagnose: Strengths, Weaknesses, Opportunities, Threats:

Helpful

Harmful

Internal

Funded QI projects regarding retention and health literacy in system navigation.

More shared decision-making and co-creation with community members.
Health literacy demands we put on clients.
More transparency on the part of organizations regarding changes (eg, case manager turnover and access).
Lack of navigation once diagnosed.
Providing overall healthy living to prevent comorbidities.

SWOT

External

To create a one-stop-shop for services and create more convenience for individuals and coordinate.

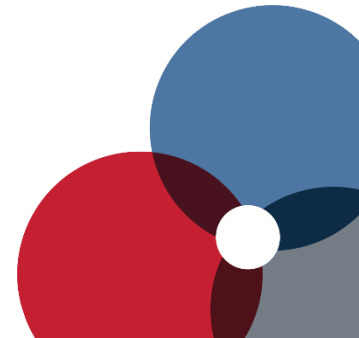

HIV Legislation in the state of Ohio – comes with stigma, lack of routine testing in PC settings.
Lack of trust.
Lack of diversity of providers

Pillar 2: Treat people in Ohio living with HIV rapidly and effectively to reach sustained viral suppression.

Continuum Crosswalk: Retained in Care, Re-engaged in Care, Virally Suppressed

Achieving this target requires:

- Promptly linking individuals newly diagnosed with HIV to care and treatment, including through rapid start treatment programs;
- Finding innovative and effective ways to re-engage Ohioans who are aware of their infection but not receiving HIV care and treatment; and
- Supporting those already in care who have not yet achieved viral suppression to achieve control of the virus.

Treat

Program	Funder	Sites/Models
Linkage to Care	CPH Equitas, AHF, CPH ADAMHS/GRF/Equitas	CPH <ul style="list-style-type: none"> Passport to Partner Services (DIS) Reengagement & data to care (D2C) CPH, AHF, Equitas <ul style="list-style-type: none"> Linkage to Care via cross organizational team (ARTAS-based) Equitas, Safe Pointe (SSP)

EFA	CPH/RWPA	Equitas • Medications (exceptions)
Early Intervention Services (4 parts)	CPH/RWPA	Funds used to augment testing (CTR) and linkage to care (see above)
Oral Health Care	ODH/RWPB Rebates Medicaid	Network in progress (provider agreements out) Independent network
Mental Health Services	CPH/RWPA ODH/RWPB Rebates Integrated Integrated Medicaid	Equitas Network in progress (provider agreements out) AHF Nationwide Provider network

Treat

Program	Funder	Sites/Models
Food Bank/Home Delivered Meals	(non-HIV)	Mid-Ohio independent network Lifecare Alliance (for HIV and cancer patients) <ul style="list-style-type: none"> • Delivery
Non-Medical Case Management (lower acuity clients)	CPH/RWPA	Equitas AHF Children's CPH (14 staff covered)
Psychosocial Support	CPH/EHE	Equitas <ul style="list-style-type: none"> • support groups
Legal Services	Integrated	Equitas <ul style="list-style-type: none"> • Trans and non-binary legal needs
TransHealth	Integrated	Equitas OSU Nationwide Children's THRIVE Clinic
Data to Care	CPH	HD based and staffed

Treat

Program	Funder	Sites/Models
Housing Case Management	CPH/RWPA & HOPWA Ohio Means Jobs network	Equitas Lancaster Fairfield Community Action Licking Coalition for Housing Jewish Family Services <ul style="list-style-type: none"> • Employment readiness and linkage to jobs
Housing Support Services (Employment)	HOPWA	Jewish Family Services <ul style="list-style-type: none"> • Employment readiness and linkage to jobs
Housing Resources – Financial	HOPWA	Equitas Lancaster Fairfield Community Action Licking Coalition for Housing <ul style="list-style-type: none"> • Short term rent, mortgage and utility assistance (STRMU) • Permanent housing placement • Tenant based rental assistance (TBRA)
Linguistic support	ODH/RWPB Rebates	Equitas Southeast, Inc.
Health insurance premiums/co-pays	ODH/RWPB Rebates	OHDAP

Treat: Strengths, Weaknesses, Opportunities, Threats:

Helpful

Harmful

Internal

Cultural and system competency of case managers.

SWOT

External

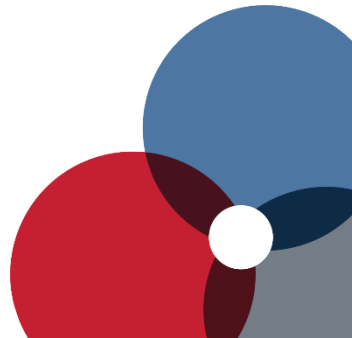

Additional funding for FQHCs that will increase provider capacity with complementary services.
Cultural and system competency of case managers.

Diversity in the whole spectrum of providers/
“providers that look like us”.

Pillar 3: Prevent new HIV transmissions in Ohio by using proven interventions, including (PrEP) and syringe services programs (SSPs).

HIV Continuum Cross Walk: HIV Negative & At Risk

Scale-up needed and proven prevention interventions and strategies.

Prevent

Program	Funder	Sites/Models
PEP	Integrated/AG Integrated/AG <i>ODH/EHE</i>	AHF Equitas <i>CPH/partners</i>
PrEP (Prescribing/Follow Up)	Integrated/Medicaid/ Private Insurance/PAPI (ODH/GRF) <i>HRSA/EHE</i> <i>HRSA/EHE</i> <i>HRSA/EHE</i> <i>HRSA/EHE</i> <i>ODH/EHE</i> NIH	(CPH & OHIV.org list) <i>Heart of Ohio</i> <i>OSU</i> <i>SE Community Mental Health</i> <i>Primary One</i> <i>CPH</i> OSU AIDS Clinical Trials Group (research)
TelePrEP	Integrated/PAPI	(assume for most OHIV.org providers due to covid-19) Equitas OSU CPH
PrEP Navigation	ODH/EIS	Equitas

Prevent

Program	Funder	Sites/Models
PrEP Assistance	ODH/GRF	PAPI Access aside from Ohiv.org (assume navigators/EIS)?
SSP	CPH/Equitas	Equitas <ul style="list-style-type: none"> • SafePoint
Condom distribution	CPH ODH/GRF	By request OHIV.org
Evidence Based Interventions (EBIs)		Equitas <ul style="list-style-type: none"> • Mosaic
Social marketing/campaigns/info distribution	CPH ODH AHF Equitas Gilead	KNOW HIV PrEP STI/HIV awareness ? PrEP
Prevention case management/addressing SDOH	ODH	2019 model of care for community-based testers

Prevent: Strengths, Weaknesses, Opportunities, Threats:

Helpful

Harmful

Internal

PrEP awareness increasing (but more work to do!).

Lack of knowledge regarding PEP prescribing by providers (ER, PCPs).

Hours of operation limiting access to PEP affecting course of treatment effectiveness.

SWOT

External

Currently do not prescribe PEP as a standard.

Leveraging wellness model to address social factors that contribute to success/health.

Lack of insurance coverage for Rx may cause access issues.

Attacks on ACA.

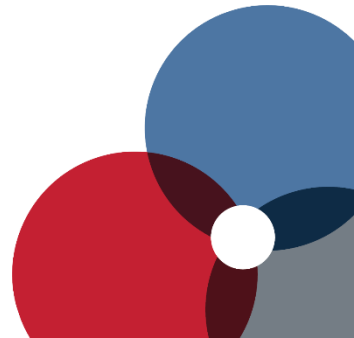

Reducing services for trans individuals via federal govt.

Institutionalized racism.

Pillar 4: Respond quickly to potential HIV outbreaks to get needed prevention and treatment services to Ohioans who need them.

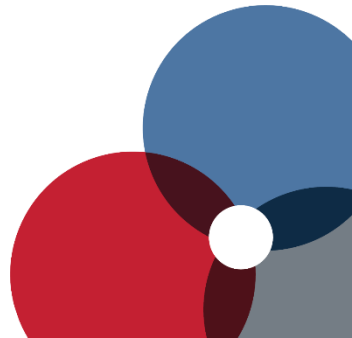

Achieving this target requires:

- Using data to identify where HIV is spreading most rapidly and guide decision-making to address prevention, care, and treatment needs
- Supporting jurisdictions to establish local teams committed to the success of the EHE plan who will work with the community to design & develop tailored plans to expand HIV prevention and treatment services
- Increasing investments in geographic hotspots

Respond

Program	Funder	Sites/Models
Planning	ODH/CDC	CPH <ul style="list-style-type: none">• Surveillance• DIS• Molecular surveillance• Frontline staff
Training	ODH/CDC	CPH <ul style="list-style-type: none">• Among staff
Collaboration (ODH)	ODH/CDC	CPH

Respond: Strengths, Weaknesses, Opportunities, Threats:

Helpful

Harmful

Internal

Monthly HIV assessment via CPH with data trends, utilization.

Focusing on behavior of individuals over systemic factors which may influence outcomes.
Potential deficit in lab capacity for molecular testing.

SWOT

External

Community and education in molecular surveillance.
Increasing SSP availability in more geographies.
Addressing social determinants.

Social determinants
HIV criminalization law and how it intersects with molecular surveillance.
