Strategy Design Process

Proposed Approach

❖ *CCS prepares starting points, Advisory Committee modifies*

❖ *Conducted through one hour virtual work sessions or by email*

❖ *Meet weekly in October*

❖ *Vet proposed strategies with community stakeholders early November*

❖ *Finalize strategies mid-November*

Identify Current Issues

- CCS staff will review notes from all community stakeholder inputs
  - Community stakeholder meeting, focus groups, interviews, surveys, AC meetings, listening sessions
- CCS will prepare a list of issues organized by pillar and cross cutting themes
- AC MEETING – First Week in October
  - AC considers issues prepared by CCS staff by pillar
  - AC has opportunity to approve, modify, reject or add new issues

End Result - Comprehensive list of issues to be addressed by EHE Plan

What was missing when you were first diagnosed that IS available now?

- Access to medication
- The right medication
- Mental health portion of treatment, those diagnosed today are offered that opportunity
- I wouldn't have panicked as much if mental health counseling had been available

What would make us more comfortable sharing our status?

Public awareness

- More information for the general public
- More info about U=U
- Lack of information increases stigma, makes people scared of HIV

How have nondisclosure criminalization laws impacted your life?

Negatively, I was sent to penitentiary

- People didn't know criminalization was out there
- It keeps people from getting tested
- Prevents people from staying in care – have to hide your pills even within your house
- People are in abusive relationships can cannot see a way out because if they leave – the person may claim they didn't share their status and could be liable
- Law is interpreted by the judge, they don't always understand the transmission - the law is unclear
- Didn't want to be in any relationship because I didn't want to go to jail
- Criminalization law does not help me stay healthy

What works to keep you in care, what prevents you from being in care?

- Education helps me stay healthy – the more I learn about it, the more likely I am going to enter and stay in care because it keeps me healthy

Any programs that empower us and help us take charge of our lives? Peer led models?

- Miami Valley positives for positives – started by consumers who did not want to wait on the
- Healing Circles – oldest HIV/AIDS support group in State
- Local LGBT Center – Online support group (Cinci)
- Akron has a support group
- Cincinnati has a women's support group
- Safe for Change – to elevate and put to the forefront the people living with HIV, giving them the platform

As someone who is Black/Brown – what is different about accessing services? What are the challenges?

- White people have money and health insurance
- With systemic racism, you start 10 steps behind – walking into spaces you don't feel comfortable
- Some people don't know how to advocate for themselves or have someone who can guide them
- White privilege prevalent in all spaces, including HIV/AIDS space
- We have other issues that can keep us from accessing or staying in care
  - Mental health
  - Substance abuse

Treat

- Access to medication
- The right medication
- Mental health portion of treatment, those diagnosed today are offered that opportunity
- Criminalization law does not help me stay healthy
- White people have money and health insurance
- Education helps me stay healthy – the more I learn about it, the more likely I am going to enter and stay in care because it keeps me healthy

Diagnose

- It keeps people from getting tested

Prevent

- More information for the general public
- More info about U=U

Respond

Develop Strategies – Part 1

- CCS staff will categorize identified issues using situational analysis and CDBH EHE funded programs
  - program/service exists to meet need
  - program/service exists, does not fully meet need
  - program/service does not exist, has existed in past
  - Program/services does not exist, has never existed here
  - Issues cannot be addressed by program/service
  - Other
- AC MEETING – Second Week in October
  - AC reviews categorized issues
  - AC identifies whether programs/services that can address an issue need to be maintained, expanded, created, piloted, re-started

End Result - List of actions that need to be taken to meet the goals of EHE

Treat

- ==Access to medication== – Programs Exists, does not fully meet need
- ==The right medication==

Diagnose

- ==It (criminalization) keeps people from getting tested== – Issue cannot be met by program or service

Prevent

- ==More information for the general public==
- ==More info about U=U== – Program has existed in the past, does not exist now

Respond

Treat

- ==Access to medication== – Programs Exists, does not fully meet need
  - ACTION – Expand current program
- ==The right medication==

Diagnose

- ==It (criminalization) keeps people from getting tested== – Issue cannot be met by program or service
  - ACTION – Advocacy at the state level

Prevent

- ==More information for the general public==
- ==More info about U=U== – Program has existed in the past, does not exist now
  - ACTION – Bring back old program that worked in past

Respond

Develop Strategies – Part 2

- CCS staff will use the list of actions to develop cohesive strategies
  - When possible, strategies will incorporate multiple issues/actions
- AC MEETING – Third Week in October
  - Strategies presented to AC for discussion
  - AC opportunity to accept, modify, reject or add new strategies

End Result - Narrowed list of Strategies

Treat

- ==Access to medication== – Programs Exists, does not fully meet need
  - ACTION – Expand current program
  - STRATEGY: Expand Medication Access Program to serve an additional 50 clients
- ==The right medication==

Diagnose

- ==It (criminalization) keeps people from getting tested== – Issue cannot be met by program or service
  - ACTION – Advocacy at the state level
  - STRATEGY – Develop coalition to advocate for change in state law

Prevent

- ==More information for the general public==
- ==More info about U=U== – Program has existed in the past, does not exist now
  - ACTION – Bring back old program that worked in past
  - STRATEGY- Update past materials to renew U=U campaign

Respond

Implementation Path

- CCS staff will develop steps to implement each strategy and identify potential lead agencies for each strategy

- AC MEETING – Fourth Week in October
  - Presentation of implementation steps and potential lead agencies
  - AC opportunity to accept, modify, reject or add new steps and partners

End Result - Strategies with implementation paths and partners

Treat

- **The right medication**
- **Access to medication** – Programs Exists, does not fully meet need
  - ACTION – Expand current program
  - STRATEGY- Expand Medication Access Program to serve an additional 50 clients
  - PATH- Obtain Funding, Distribute to organizations, Enroll clients

Diagnose

- **It (criminalization) keeps people from getting tested** – Issue cannot be met by program or service
  - ACTION – Advocacy at the state level
  - STRATEGY – Develop coalition to advocate for change in state law

Prevent

- **More information for the general public**
- **More info about U=U** – Program has existed in the past, does not exist now
  - ACTION – Bring back old program that worked in past
  - STRATEGY- Update past materials to renew U=U campaign

Respond

Public Vetting

- Draft Strategies will be posted to EHE Cuyahoga webpage
  - Feedback from will be included

- Community Stakeholder Review Event – First week in November
  - Virtual event
  - Invite all those who have participated in process
  - Invite general public
  - Review strategies
  - Breakout groups to gather feedback

End Result - Suggestions from stakeholders on strategies

Finalize Strategies

- CCS will use feedback from community stakeholder event to propose changes to strategies

- AC MEETING – 2nd Week in November

- AC will have opportunity to accept, modify or reject proposed changes to strategies

- AC will approve final strategies

Report

CCS completes draft end of November
Submitted to ODH early December
ODH Reviews and submits plan to CDC
